

# Accessibility Compliance Inspection Checklist

 Show only Checklist

Display Style  
Default 

## Exterior Access & Circulation

Focuses on accessibility of walkways, entrances, parking, and outdoor spaces surrounding the facility.

## Primary Entrance Location

 [Set My Current Location](#)

## Number of Designated Accessible Parking Spaces

Enter a number...

## Distance from Accessible Parking to Entrance (feet)

Enter a number...

### Accessible Parking Surface Condition

- Stable and Level
- Minor Cracks/Unevenness
- Significant Damage/Unevenness - Potential Hazard

### Accessible Route to Entrance Type

- Sidewalk
- Ramp
- Other (Specify)

### Accessible Route Width (feet)

### Obstacles on Accessible Route?

- No
- Yes (Specify in LONG\_TEXT below)

### Description of Obstacles (if any)

### Photo of Accessible Route and Parking

 Upload File

# Entrances & Doors

Evaluates the accessibility of all entrances, including door dimensions, hardware, and maneuvering clearances.

## Minimum Clear Width at Entrance (inches)

## Door Operating Force (lbs)

 ≤ 5 lbs ≤ 15 lbs (with power assist)

## Door Swing Direction (Impact on Accessible Route)

 Does not obstruct accessible route Obstructs accessible route - mitigation required

## Clear Floor Space at Door (width in inches)

### Clear Floor Space at Door (depth in inches)

Enter a number...

### Door Hardware Accessibility

- Lever handles present
- Hinges Accessible
- Push/Pull Plates Present
- Accessible Height
- Other (specify in LONG\_TEXT)

### Additional Notes regarding hardware accessibility (if 'Other' selected)

Write something...

### Automatic Door Operation?

- Yes
- No

### Describe any observed issues with entrance/door accessibility

Write something...

# Ramps & Elevators

Checks ramps for proper slope, landings, and handrails; and elevators for operation, dimensions, and signage.

## Ramp Slope (%)

## Ramp Width (inches)

## Landing Width at Bottom of Ramp (inches)

## Landing Width at Top of Ramp (inches)

## Ramp Handrails Present?

- Yes
- No
- Not Applicable

**Elevator Presence?**

- Yes
- No
- Not Applicable

**Elevator Interior Width (inches)**

Enter a number...

**Elevator Interior Depth (inches)**

Enter a number...

**Elevator Control Panel Height (inches)**

- Less than 48 inches
- Between 48 and 54 inches
- Greater than 54 inches
- N/A

**Any Elevator Maintenance/Repair Notes?**

Write something...

# Interior Circulation & Wayfinding

Assesses accessible routes through the facility, including hallways, corridors, and maneuvering clearances; also evaluates signage and wayfinding elements.

## Minimum clear width of hallways (inches)

## Turning radius at intersection of hallways (feet)

## Are accessible routes clearly marked and free of obstructions?

- Yes
- No
- N/A

## What types of obstructions are present on accessible routes? (Select all that apply)

- Furniture
- Storage
- Debris
- Construction Materials
- None

**Describe any observed issues with accessible routes and provide suggestions for remediation.**

Write something...

**Are tactile warning strips present at the edges of drop-offs?**

Yes

No

N/A

**Describe signage and wayfinding clarity. Are signs at consistent heights and easily readable?**

Write something...

**Are directional signage available and appropriately placed?**

Yes

No

N/A

## Restrooms & Hygiene Facilities

Examines accessible restrooms, sinks, toilets, and other hygiene facilities, ensuring compliance with size, grab bar placement, and maneuvering clearances.

**Toilet Stall Width (Minimum)**

Enter a number...

### Clear Floor Space in Front of Toilet (Minimum Length)

Enter a number...

### Toilet Paper Dispenser Height (Above Finished Floor)

- Less than 36 inches
- 36-48 inches
- Greater than 48 inches

### Grab Bar Presence & Placement (Check all that apply)

- Toilet Adjacent Grab Bar Present (Left)
- Toilet Adjacent Grab Bar Present (Right)
- Grab Bar Height Correct (33-36 inches)
- Grab Bar Securely Mounted

### Sink Height (Above Finished Floor)

- Less than 32 inches
- 32-36 inches
- Greater than 36 inches

### Notes on Sink Accessibility (e.g., knee clearance, insulation)

Write something...

### Accessible Toilet Paper Dispenser

- Yes
- No
- N/A

### Mirror Accessibility (Check all that apply)

- Mirror Edge No Closer than 27 inches to Floor
- Clearance Provided Under Sink

## Emergency Egress & Safety

Evaluates accessible routes to exits, emergency alarms, and other safety features.

### Are accessible routes to all exits clearly marked and unobstructed?

- Yes
- No
- N/A

**Number of accessible emergency exit signs present and functioning.**

Enter a number...

**Are audible emergency alarms present and functioning?**

Yes

No

N/A

**Are visual emergency alarms present and functioning?**

Yes

No

N/A

**Describe any obstacles or conditions that hinder emergency egress for individuals with disabilities.**

Write something...

**Are emergency exit routes wide enough to accommodate wheelchair users?**

- Yes
- No
- N/A

**Are fire extinguishers accessible and clearly visible?**

- Yes
- No
- N/A

**Date of last fire safety inspection.**

Enter date...

## Common Areas & Amenities

Covers accessibility of common areas such as lobbies, waiting areas, cafeterias, and recreational spaces.

**Are accessible tables and seating available in the cafeteria/breakroom?**

- Yes
- No
- N/A - No Cafeteria/Breakroom

**Number of accessible seating options available in common waiting areas.**

Enter a number...

**Which of the following amenities are provided in common areas?**

- Accessible vending machines
- Accessible water fountains
- Accessible ATMs
- Accessible information kiosks
- None

**Describe any observed barriers to accessibility within common areas (e.g., obstructions, inadequate space).**

Write something...

**Are accessible routes clearly marked and maintained in common areas?**

- Yes
- No
- Partially

**Upload photos documenting accessibility of common areas.**

 Upload File

**Mechanical Rooms & Service Areas (Limited Access)**

Considers accessibility for maintenance personnel accessing mechanical rooms and other service areas (focus on accessible routes where applicable and safe).

**Accessible Route Presence?**

Write something...

**Width of Accessible Route (feet)**

Enter a number...

**Describe any obstacles or deviations from accessible route guidelines.**

Write something...

**Presence of Accessible Electrical Panel?**

- Yes
- No
- N/A

**Are controls reachable without strain?**

- Yes
- No
- N/A

**Notes on accessibility of shut-off valves (if accessible).**

Write something...

**Photo Documentation of Accessible Route/Conditions**

 Upload File

## Grounds Maintenance & Landscape

Evaluates the accessibility of outdoor grounds, including paths, plantings, and play areas.

**Surface Slope (%)**

Enter a number...

### Ground Cover Types Present

- Paved Surface (Concrete, Asphalt)
- Gravel/Loose Stone
- Grass/Turf
- Mulch
- Sand

### Ground Surface Stability

- Stable and Firm
- Slightly Uneven
- Unstable/Loose

### Describe any observed obstructions (e.g., exposed tree roots, protruding rocks)

Write something...

### Width of Accessible Path (inches)

Enter a number...

### Obstacles present along accessible routes?

- None
- Shrubbery
- Benches
- Planters
- Other (specify in LONG\_TEXT)

### Last Grounds Maintenance Date

Enter date...
