Write something...

Tool Storage Organized?

Yes

No

Number of visible tripping hazards:

Enter a number...

Fire Safety

Inspection of fire extinguishers, alarms, and emergency exits.

Last Fire Extinguisher Inspection Date

Fire Extinguisher A - PSI Reading

Fire Extinguisher B - PSI Reading

Fire Extinguisher A - Condition

- Good
- Needs Service
- Damaged

Fire Alarm System Status

- Operational
- Needs Maintenance
- Not Operational

Last Fire Drill Date

Enter date...

Comments on Fire Safety Concerns

Write something...

Hazardous Materials

Proper storage, labeling, and handling of chemicals and fluids.

Solvent Storage: Compliant?

- Yes
- No
- N/A

Antifreeze Container Level (inches)

Enter a number...

Chemicals Present (Check all that apply)

- Brake Cleaner
- Engine Degreaser
- Coolant
- Brake Fluid
- Other (Specify in Long Text)

Specify 'Other' Chemicals (if applicable)

Write something...

Last Chemical Inventory Date

Enter date...

Secondary Containment in Place?

- Yes
- No
- N/A

MSDS Documentation (upload)

 Upload File

Lifting Equipment

Checks for hoists, jacks, and lifts – inspection of safety devices and certifications.

Hoist Capacity (lbs/kg)

Last Inspection Date

Lift Speed (ft/min)

Safety Brake Functioning?

- Pass
- Fail
- N/A

Limit Switch Functioning?

- Pass
- Fail
- N/A

Any Abnormal Noises During Operation?

Write something...

Upload Inspection Certificate (if applicable)

 Upload File

Compressed Air Systems

Inspection of hoses, connections, and pressure regulators.

Air Pressure (PSI)

Enter a number...

Hose Condition

- Good
- Fair
- Poor - Replace

Quick Connect Condition

- Good
- Fair
- Poor - Replace

Filter Condition (Scale 1-10, 10 = New)

Enter a number...

Notes/Observations (e.g., leaks, unusual noises)

Write something...

Last Filter Change Date

Enter date...

Electrical Systems

Check for frayed wires, proper grounding, and safe operation of equipment.

Voltage Level (V)

Enter a number...

Grounding Condition

- Adequate
- Needs Improvement
- Insufficient

Amperage of Main Breaker (A)

Enter a number...

Cord & Plug Condition

- Good
- Frayed/Damaged
- Needs Repair

Last Electrical System Inspection Date

Enter date...

Personal Protective Equipment (PPE)

Availability and use of safety glasses, gloves, respirators, and other PPE.

Safety Glasses Available?

- Yes
- No
- N/A

Gloves Available?

- Yes
- No
- N/A

Number of Respirators Available

Enter a number...

Type of Respirators Available (if any)

- Dust Masks
- Half-Face Respirators
- Full-Face Respirators
- None

PPE Condition - Any damaged or worn items?

- Safety Glasses
- Gloves
- Respirators
- Hearing Protection
- Other
- None

Notes on PPE condition or replacement needs

Write something...

Ventilation

Adequate ventilation for fumes and exhaust.

Exhaust Fan CFM (Cubic Feet per Minute)

Enter a number...

Local Exhaust Ventilation Airflow (Velocity)

Enter a number...

Ventilation System Type

- General Shop Exhaust
- Local Exhaust (Welding, Spray Booth)
- Other

Description of Ventilation System (if 'Other' selected)

Write something...

Filters Condition

- Clean
- Slightly Dirty
- Dirty - Needs Replacement

Last Filter Replacement Date

Enter date...

Floor Conditions

Check for slips, trips, and falls hazards – oil spills, debris, and uneven surfaces.

Oil Spot Count

Surface Condition

- Dry & Clean
- Slightly Oily
- Oily
- Wet
- Debris Present

Description of Any Hazards

Trip Hazard Count

Floor Marking Condition

- Clear & Visible
- Faded
- Missing
- Damaged

Waste Disposal

Proper disposal of used oil, antifreeze, and other hazardous waste.

Last Waste Disposal Date

Used Oil Volume (Gallons)

Antifreeze Volume (Gallons)

Waste Oil Container Condition

- Good
- Damaged
- Leaking
