

## Cargo Securement Verification Checklist

#### **Pre-Loading Inspection**

Verify the cargo area and securing devices are clean, undamaged, and appropriate for the load.

**Cleanliness Assessment (Describe condition)** 

Write something...

Ambient Temperature (degrees Celsius/Fahrenheit)
Enter a number
Deck/Floor Condition
Clean and Dry
Slightly Damp
Wet
☐ Damaged
Securement Device Storage Condition
Clean and Accessible
Dirty
☐ Inaccessible
Photo of Cargo Area (Pre-Load)  L Upload File
Cargo Assessment
Determine the cargo's characteristics (weight, dimensions, fragility, center of gravity, and potential shifting tendencies).
Cargo Weight (lbs/kg)
Enter a number

Cargo Length (inches/cm)
Enter a number
Cargo Width (inches/cm)
Enter a number
Cargo Height (inches/cm)
Enter a number
Cargo Type    Palletized   Loose Items   Liquid/Bulk   Rolls   Other
Description of Cargo  Write something
Potential Shifting Characteristics (select all that apply)    Fragile   Unstable Base   Loose Packaging   Liquid Contents   None

Estimated Center of Gravity  Central Forward Aft Left Right
Securement Method Selection  Identify and select the appropriate securement method(s) based on cargo characteristics and regulatory requirements.
Cargo Type Classification (e.g., Palletized, Breakbulk, Liquid)    Palletized   Breakbulk   Liquid   Rolled Goods   Other
Estimated Cargo Weight (lbs/kg)  Enter a number
Mode of Transportation  Truck Rail Sea Air

Potential Shifting Factors (Select all that apply)  Stacking Rolling Sliding Tilting Fragility Liquid Spill Potential
Preferred Securement Type (Initial Recommendation)  Strapping Chaining Dunnage Blocking/Bracing Combination
Notes/Justification for Securement Choice  Write something
Securement Device Inspection Inspect all used securing devices (straps, chains, dunnage, shoring) for damage, wear, and proper working order.
Strap/Chain Length (Feet/Meters)  Enter a number

Strap/Chain WLL (lbs/kN)
Enter a number
Strap Material  Polyester
Nylon
☐ Wire Rope ☐ Other
Buckle/Connector Type
Ratchet
Cam Buckle
<ul><li>Wire Rope Clip</li><li>Other</li></ul>
Describe any observed damage or wear (e.g., cuts, abrasions, corrosion)
Write something
Condition of securement device
☐ Good
☐ Fair ☐ Poor
Unusable

### **Securement Application**

Apply securement devices according to established procedures and regulations. Ensure proper tension and placement.

Strap Tension (lbs/kN)	
Enter a number	)
Chain Length (inches/cm)	
Enter a number	)
Strap Placement (Top, Bottom, Side)	
Тор	
Bottom	
Side	
Securement Points Used (Check all that apply)	
Floor	
☐ Wall ☐ Tie-Down Points	
Other	

Comments on Securement Technique (if any)	
Write something	
Dunnage Type (if applicable)	
Wood	
Air Bags	
Foam	
None	
Number of Straps/Chains Used	
Enter a number	
Working Load Limit (WLL) Verification Confirm that the working load limits of securing devices are not exceeded and are appropriately rated for the cargo weight.

Notes on WLL Verif	cation (e.g., calculation	s, exceptions)	
Write something			

### **Cargo Distribution & Stability**

erify the cargo is distributed evenly and the load is stable to prevent shifting during ransport.	
Center of Gravity (COG) Shift Allowance (inches)	
Enter a number	
Cargo Distribution Method	
Evenly Distributed	
Concentrated	
Other (Specify)	
If 'Other' for Cargo Distribution Method, please explain:	
Write something	
Potential Shifting Risks Assessed?	
☐ Vertical Shift	
Lateral Shift	
Rotation	
None Identified	
Describe any observed cargo instability and mitigation measures:	
Write something	
Number of Dunnage Pieces Used:	
Enter a number	
	_

Is the cargo blocked to prevent forward movement?  Yes  No N/A	
Documentation & Record Keeping	
Record the securement method, devices used, and inspection in locumentation.	results in the appropriate
Inspection Date	
Enter date	
Inspection Time	
Cargo Weight (lbs/kg)	
Enter a number	
Securement Device Working Load Limit (WLL) - Strap 1	
Enter a number	
Securement Device Working Load Limit (WLL) - Strap 2	
Enter a number	

Securement Method Used	
Strapping	
Chaining	
Dunnage	
Blocking and Bracing	
Other (Specify in Long Text)	
Detailed Securement Description (Placement, Orientation	, Tension)
