

Cargo Temperature Control Verification (Refrigerated Transport) Checklist

Pre-Departure Equipment & Vehicle Checks

Verification of the refrigeration unit and vehicle condition prior to loading cargo.

Refrigeration Unit Voltage (V) Enter a number	
Enter a namber	
Refrigeration Unit Amperage (A)	
Enter a number	
Ambient Temperature (°C/°F)	
Enter a number	
Refrigeration Unit Set Point (°C/°F)	
Enter a number	
Refrigeration Unit Operational Status	
Operating Normally	
Warning Light Active	
Malfunction - Requires Attention	

Vehicle Temperature Recorder Operational? Yes No
Comments/Observations (e.g., unusual noises, leaks)
Write something
Pre-Departure Photos/Documentation (Optional) L Upload File
Cargo Loading & Initial Temperature Recording Checks performed during loading to ensure correct cargo placement and initial temperature settings.
Initial Cargo Temperature (°C/°F)
Enter a number
Target Temperature Range (°C/°F)
Enter a number
Refrigeration Unit Operating Mode Cooling Heating Maintenance

Cargo Placement - Proximity to Refrigeration Unit Optimal - As per Guidelines
Acceptable - Minor Adjustment Needed
Suboptimal - Requires Review
Suboptimal - Requires Review
Notes on Cargo Loading and Initial Conditions (e.g., packaging, visible damage)
Write something
Time of Initial Temperature Recording
Product Type
Food
Pharmaceuticals
☐ Chemicals
Other
En-Route Temperature Monitoring & Logging Regular temperature checks and data recording throughout the transport journey.
Time of First Temperature Check
Temperature Reading (°C/°F)
Enter a number

Ambient Temperature (°C/°F)	
Enter a number	
Refrigeration Unit Status	
Operating Normally	
Minor Deviation	
Major Deviation - See Log	
Unit Malfunction	
Observations/Notes (e.g., humidity, unusual noises)	
Write something	
Date of Temperature Check	
Enter date	
Time of Temperature Check	
GPS Location (Latitude)	
Enter a number	
GPS Location (Longitude)	
Enter a number	

Temperature Deviation & Corrective Actions

Procedures for addressing any temperature excursions during transport.

Time of Deviation Detected
Temperature at Time of Deviation (°C/°F)
Enter a number
Target Temperature (°C/°F)
Enter a number
Reason for Deviation (Select Best Fit)
Equipment Malfunction
☐ Door Opening
☐ Incorrect Loading ☐ External Environmental Factors
Other (Specify in Long Text)
Detailed Description of Deviation and Possible Cause
Write something
Corrective Actions Taken
Write something

Temperature After Corrective Action (°C/°F) Enter a number Effect on Cargo (Risk Assessment) No Impact Minor Impact - Monitor Closely Significant Impact - Consult Supervisor Potential Product Loss - Immediate Action Required
Effect on Cargo (Risk Assessment) No Impact Minor Impact - Monitor Closely Significant Impact - Consult Supervisor
No Impact Minor Impact - Monitor Closely Significant Impact - Consult Supervisor
Minor Impact - Monitor Closely Significant Impact - Consult Supervisor
Significant Impact - Consult Supervisor
Potential Product Loss - Immediate Action Required
Signature of Person Implementing Corrective Action Arrival & Final Temperature Recording erification of cargo temperature upon arrival and documentation of final readings.
Arrival Temperature (Cargo)
Enter a number
Arrival Temperature (Refrigeration Unit)
Enter a number

Average Temperature during Transit
Enter a number
Temperature within acceptable range? ☐ Yes
□ No
Observations/Comments on Arrival Condition (e.g., condensation, ice build-up)
Write something
Date of Arrival
Enter date
Time of Arrival
Describe any deviations from expected temperature range or conditions.
Write something
Recipient Acceptance of Cargo Temperature
Accepted
Rejected Conditional Acceptance
Conditional Acceptance

Documentation & Record Keeping Insuring all temperature data, deviations, and corrective actions are properly record maintained. Date of Transport Enter date	ded
Date of Transport	
Enter date	
Effici date	
Departure Time	
Arrival Time	
Initial Temperature (Pre-Loading)	
Enter a number	
Final Temperature (Arrival)	
Enter a number	
Temperature Logs / Data Recording (Attach screenshot/export)	
Write something	

Any Temperature Deviations & Corrective Actions Taken	
Write something	
Compliance with Temperature Requirements? Yes No	
Supporting Documentation (e.g., Reefer Unit Maintenance Records) L Upload File	
Signature of Verifying Personnel	\supset
Equipment Calibration & Maintenance	
Schedule and records related to the calibration and maintenance of temperature monitoring equipment.	
Last Calibration Date (Temperature Sensors)	
Enter date	
Calibration Accuracy (+/-)	
Enter a number	

☐ Three-Point Calibration ☐ Multi-Point Calibration ☐ Manufacturer's Recommended Procedure Calibration Results/Observations Write something Calibration Certificate (If Applicable) Last Maintenance Date (Refrigeration Unit) Enter date	Next Calibration Due Date (Temperature Sensors)	
☐ Three-Point Calibration ☐ Multi-Point Calibration ☐ Manufacturer's Recommended Procedure Calibration Results/Observations Write something Calibration Certificate (If Applicable) ☐ Upload File Last Maintenance Date (Refrigeration Unit) Enter date Maintenance Performed (Refrigeration Unit)	Enter date	
☐ Three-Point Calibration ☐ Multi-Point Calibration ☐ Manufacturer's Recommended Procedure Calibration Results/Observations Write something Calibration Certificate (If Applicable) ☐ Upload File Last Maintenance Date (Refrigeration Unit) Enter date Maintenance Performed (Refrigeration Unit)		
Multi-Point Calibration Manufacturer's Recommended Procedure Calibration Results/Observations Write something Calibration Certificate (If Applicable) Last Maintenance Date (Refrigeration Unit) Enter date Maintenance Performed (Refrigeration Unit)	Calibration Method	
Manufacturer's Recommended Procedure Calibration Results/Observations Write something Calibration Certificate (If Applicable) Last Maintenance Date (Refrigeration Unit) Enter date Maintenance Performed (Refrigeration Unit)	Three-Point Calibration	
Calibration Results/Observations Write something Calibration Certificate (If Applicable) Last Maintenance Date (Refrigeration Unit) Enter date Maintenance Performed (Refrigeration Unit)	Multi-Point Calibration	
Write something Calibration Certificate (If Applicable) Last Maintenance Date (Refrigeration Unit) Enter date Maintenance Performed (Refrigeration Unit)	Manufacturer's Recommended Procedure	
Calibration Certificate (If Applicable) Last Maintenance Date (Refrigeration Unit) Enter date Maintenance Performed (Refrigeration Unit)	Calibration Results/Observations	
Calibration Certificate (If Applicable) Last Maintenance Date (Refrigeration Unit) Enter date Maintenance Performed (Refrigeration Unit)	Write something	
Last Maintenance Date (Refrigeration Unit) Enter date Maintenance Performed (Refrigeration Unit)	, white cometiming	
Last Maintenance Date (Refrigeration Unit) Enter date Maintenance Performed (Refrigeration Unit)).
Last Maintenance Date (Refrigeration Unit) Enter date Maintenance Performed (Refrigeration Unit)		
Last Maintenance Date (Refrigeration Unit) Enter date Maintenance Performed (Refrigeration Unit)	Calibration Certificate (If Applicable)	
Last Maintenance Date (Refrigeration Unit) Enter date Maintenance Performed (Refrigeration Unit)	♣ Unload File	
Enter date Maintenance Performed (Refrigeration Unit)	Opioda i ne	
Enter date Maintenance Performed (Refrigeration Unit)		
Maintenance Performed (Refrigeration Unit)	Last Maintenance Date (Refrigeration Unit)	
	Enter date	
Write something	Maintenance Performed (Refrigeration Unit)	
	Write something
