Project Planning & Waste Assessment

Initial assessment and planning for waste minimization.

Project Description

Write something...

Estimated Project Duration (Days)

Enter a number...

Project Start Date

Enter date...

Project Type (e.g., New Construction, Demolition, Renovation)

- New Construction
- Demolition
- Renovation
- Other

Estimated Total Waste Generated (Cubic Yards)

Enter a number...

Potential Waste Streams Identified (Initial Assessment)

- Concrete
- Wood
- Metals
- Asphalt
- Drywall
- Cardboard
- Plastics
- Soil/Rock
- Hazardous Waste

Site Map (Indicating Waste Storage Areas)

 Upload File

Waste Stream Identification

Identifying and categorizing all potential waste streams generated on-site.

Identify Common Waste Materials

- Concrete & Masonry
- Wood
- Metals (Steel, Aluminum)
- Plastics
- Cardboard & Paper
- Asphalt
- Drywall
- Soil & Excavated Materials
- Paint & Coatings
- Hazardous Waste (e.g., lead paint, asbestos)

Estimated Quantity of Concrete/Masonry (tons)

Estimated Quantity of Wood (cubic yards)

Details on Potential Hazardous Waste Streams

Write something...

Current Storage Method for Wood Waste

- Designated Wood Waste Pile
- Containerized
- Other (Specify)

Site Map Indicating Waste Storage Locations

 Upload File

Waste Reduction Strategies

Implementation of strategies to minimize waste generation at the source.

Estimated Waste Reduction Target (%)

Enter a number...

Description of Waste Minimization Plan

Write something...

Selected Waste Reduction Techniques (Check all that apply)

- Design for Deconstruction
- Material Substitution (e.g., recycled content)
- Prefabrication & Modular Construction
- Optimized Material Ordering
- Waste Exchange Programs
- Demolition Prior to Construction

Percentage of Recycled Content Used (Target)

Enter a number...

Specific Actions to Reduce C&D Waste

Write something...

Material Ordering Procedure Type

- Just-in-Time
- Detailed Quantity Calculation
- Historical Data Analysis

Material Reuse & Recycling

Procedures for reusing materials on-site and maximizing recycling efforts.

Estimated Volume of Reusable Materials (cubic yards)

Enter a number...

Material Reuse Method

- On-site Reuse
- Donation
- Sale to Salvage Yard
- Other

Description of Material Reuse/Recycling Plan

Write something...

Recyclable Materials Sorted On-Site

- Concrete
- Wood
- Metal
- Cardboard
- Plastics
- Asphalt
- Other

Documentation of Recycling Agreements/Contracts (if applicable)

 Upload File

Estimated Weight/Volume of Materials Recycled (lbs/tons/cubic yards)

Enter a number...

Responsible Waste Disposal

Ensuring proper disposal of non-recyclable waste materials.

Disposal Method Verification

- Landfill
- Incineration
- Waste-to-Energy
- Other (Specify)

Landfill/Disposal Facility Name & Permit Number

Write something...

Estimated Waste Volume (Cubic Yards)

Enter a number...

Waste Manifest or Disposal Ticket

 Upload File

Hazardous Waste Determination (If Applicable)

- Yes
- No
- Unknown

Description of any Special Handling Requirements

Write something...

Date of Disposal

Enter date...

Waste Hauler & Facility Verification

Confirming the legality and environmental compliance of waste haulers and disposal facilities.

Hauler Licensed?

- Yes
- No
- N/A

Hauler License Number

Write something...

Facility Permit Valid?

- Yes
- No
- N/A

Facility Permit Expiration Date

Enter date...

Facility Compliance Record Summary (e.g., inspections, violations)

Write something...

Copy of Hauler's Insurance Certificate

 Upload File

Facility Authorized to Handle Waste Type?

Yes

No

N/A

Documentation & Record Keeping

Maintaining accurate records of waste generation, recycling, and disposal.

Date of Waste Assessment

Enter date...

Estimated Total Waste Generated (tons)

Enter a number...

Waste Recycled (tons)

Enter a number...

Waste Sent to Landfill (tons)

Enter a number...

Description of Waste Streams & Quantities

Write something...

Waste Manifests/Disposal Records

 Upload File

Waste Hauler Name

- Hauler 1
- Hauler 2
- Hauler 3

Notes/Comments on Waste Management Practices

Write something...

Training & Communication

Ensuring all personnel are trained on proper waste management procedures.

Topics Covered in Waste Management Training

- Waste Identification
- Recycling Procedures
- Proper Disposal Methods
- Hazardous Waste Handling
- Spill Prevention & Response
- Legal Requirements

Number of Employees Trained

Enter a number...

Date of Last Training Session

Enter date...

Summary of Training Content

Write something...

Training Delivery Method

- In-Person
- Online
- Combination

Upload Training Records/Certificates

 Upload File

Site Housekeeping & Waste Containment

Maintaining a clean and organized site to prevent spills and contamination.

Designated Waste Container Locations

 Set My Current Location

Container Types Available (e.g., C&D, Roll-off, Pallet)

- C&D Debris
- Roll-off Container
- Pallet Recycling
- Cardboard Recycling
- Metal Recycling

Number of Waste Containers On-Site

Enter a number...

Container Lid Status (Securely Closed)

- Yes
- No
- N/A

Description of Spill Prevention Measures

Write something...

Last Housekeeping Inspection Date

Enter date...

Evidence of Dust Control Measures (e.g., watering, barriers)

- Yes
- No
- N/A

Regulatory Compliance & Reporting

Adherence to local, state, and federal waste management regulations.

Applicable Local Waste Management Ordinance:

- None
- Ordinance A
- Ordinance B
- Other (Specify)

State Waste Management Permit Required?

- Yes
- No
- N/A

Last Regulatory Compliance Audit Date:

Enter date...

Estimated Annual Waste Generation (tons):

Enter a number...

Summary of Waste Management Plan Submission to Authorities:

Write something...

Supporting Documentation (e.g., permits, manifests):

 Upload File

Reporting Frequency (as per regulations):

- Monthly
- Quarterly
- Annually
- Other (Specify)
