

Drone Crop Inspection Checklist: Precision Agriculture Data Collection & Analysis

Pre-Flight Checks

Ensuring drone and equipment are ready for flight.

Drone Battery Level (%)	
Enter a number	
Camera Battery Level (%)	
Enter a number	
Propeller Condition (1-5, 1=Excellent, 5=Damaged) Enter a number	
Software Version (Drone & Camera) Latest Previous Unknown	

GPS Status	
Acquired	
Searching	
Lost	
Any Pre-Flight Issues Noted?	
Write something	
light Planning & Permissions	
erifying flight area, airspace regulations, and necessary approvals.	
Flight Date	
Enter date	
Planned Flight Start Time	
Airspace Class	
Class A	
Class B	
Class C	
Class D	
Uncontrolled	
Altitude (Feet)	
Enter a number	

NOTAM Requirements Required Not Required
Flight Authorization Document (if required) 4 Upload File
Weather Conditions Clear Cloudy Rain Windy
Data Acquisition Settings
Confirming camera settings, flight path, and data resolution for optimal crop data. Flight Altitude (meters)
Enter a number
Camera Exposure Time (seconds) Enter a number

Camera Mode Manual Auto Custom
Bands/Filters (if applicable) RGB NDVI NIR Red Edge
Image Resolution (pixels/meter) Low Medium High
Overlap (lateral, %) Enter a number
Overlap (front, %) Enter a number

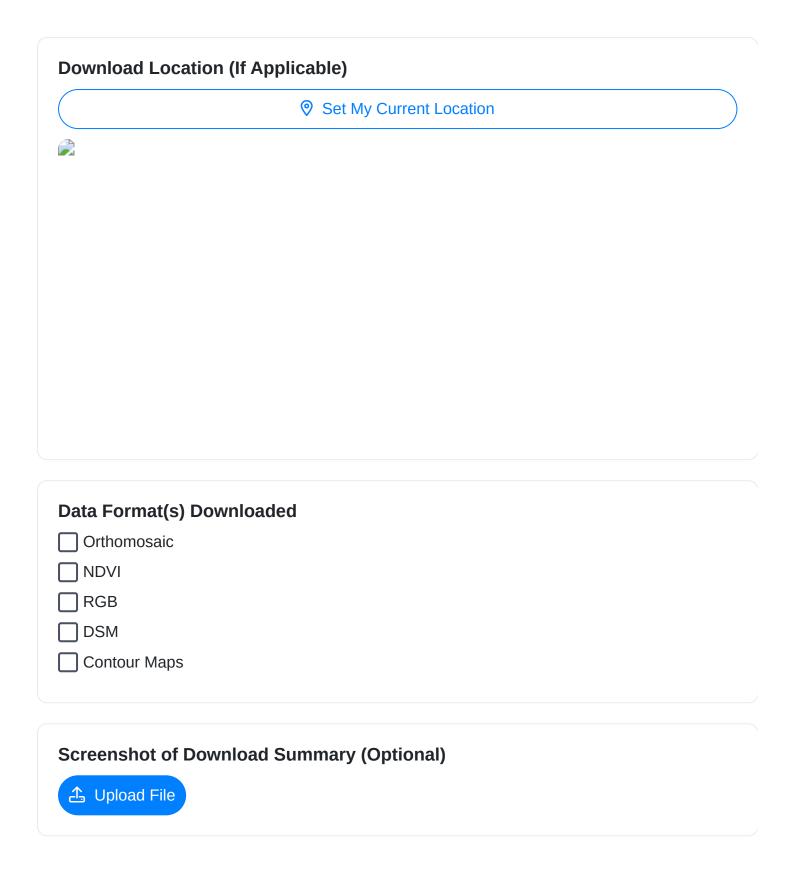

Visual Inspection – Vegetation Health

Observing and documenting visible signs of stress, disease, or nutrient deficiencies.

Presence of Visible Stress Symptoms? None Yellowing (Chlorosis) Stunted Growth Leaf Scorch Other (Specify in Long Text)
Describe any other observed stress symptoms: Write something
Estimated Percentage of Affected Area (if applicable): Enter a number
Suspected Cause (based on visual cues): Nutrient Deficiency Disease Pest Infestation Water Stress Unknown
Upload Supporting Photos (close-up views) L Upload File

Diverall Crop Health Rating (Visual) Excellent Good Fair Poor	
SPS Coordinates of Observed Area	
Set My Current Location)
ata Logging & GPS Accuracy nitoring GPS signal strength and ensuring accurate geotagging of captured data.	
SPS Signal Strength (dB)	
Enter a number)
Altitude (meters)	
Enter a number)

Enter a number	
GPS Accuracy (estimated)	
< 1m	
1-3m	
3-5m	
> 5m	
Any GPS Error Messages?	
Write something	
ime of GPS Data Recording	
Time of of a bata recording
