

# Farm Equipment Maintenance Checklist

 Show only Checklist

Display Style  
Default 

## Daily Walkaround Inspection

Quick visual check before operation to identify immediate issues.

### Equipment Location

 Set My Current Location

### Hour Meter Reading

Enter a number...

### Visual Damage Notes

Write something...

### Leaks Observed?

Yes

No

### Fluid Levels Appear Normal?

Yes

No

### Inspector Signature

## Engine Maintenance

Checks related to engine health and performance.

### Engine Hours

Enter a number...

### Oil Level (mm)

### Oil Condition

- Clean
- Slightly Dirty
- Dirty
- Very Dirty

### Last Oil Change Date

### Coolant Level (mm)

### Coolant Condition

- Good
- Cloudy
- Rusty

### Next Scheduled Service

## Hydraulic System Checks

Inspection and maintenance of hydraulic components.

### Hydraulic Oil Level (inches)

Enter a number...

### Hydraulic Oil Pressure (PSI)

Enter a number...

### Oil Condition

- Clean
- Slightly Cloudy
- Cloudy/Milky
- Contaminated

### Leak Detection Notes (if any)

Write something...

### Hose Condition

- Good
- Cracks
- Leaks
- Bulges

### Last Hydraulic Fluid Change Date

Enter date...

## Tire and Wheel Inspection

Assessment of tire condition, pressure, and wheel integrity.

### Tire Pressure (PSI)

Enter a number...

### Tire Tread Depth (mm/inches)

Enter a number...

### **Tire Condition**

- Excellent
- Good
- Fair
- Poor
- Needs Replacement

### **Wheel Damage**

- None
- Minor Scratches
- Cracks
- Significant Damage

### **Notes/Comments (e.g., uneven wear, cuts, bulges)**

Write something...

### **Lug Nut Condition**

- Tight
- Loose
- Missing
- Damaged

# Implement/Attachment Inspection

Check of attached implements, tools, or attachments.

## Attachment Type

- Tractor 3-Point Hitch
- Front-End Loader
- Rotary Tiller
- Mower Conditioner
- Planter
- Sprayer
- Other

## Hours of Use (since last inspection)

Enter a number...

## Visual Inspection Notes (damage, wear)

Write something...

## Hitch Pin Condition

- Good
- Fair
- Poor - Requires Replacement

### Blade/Tine Condition Score (1-5, 5=Excellent)

### Photo Documentation (if applicable)

 Upload File

### Operating Leaks?

Yes

No

## Safety Equipment Verification

Ensuring all safety features are functional (lights, guards, brakes).

### Headlights Functioning?

Yes

No

N/A

**Brake Lights Functioning?**

- Yes
- No
- N/A

**Turn Signals Functioning?**

- Yes
- No
- N/A

**Backup Alarm Operational?**

- Yes
- No
- N/A

**ROPS (Roll-Over Protective Structure) Intact?**

- Yes
- No
- N/A

**Brake Pressure (PSI)**

Enter a number...

# Lubrication Points

Checking and replenishing lubricants where needed.

## Grease Point 1 - Quantity (oz)

## Grease Point 1 - Description

## Grease Point 2 - Quantity (oz)

## Grease Point 2 - Description

## Last Lubrication Date

## Notes on Lubrication

# Fluid Level Checks

Monitoring and topping off fluids like coolant, oil, and transmission fluid.

## Engine Oil Level (Quarts)

## Coolant Level (Gallons)

## Hydraulic Oil Level (Quarts)

## Transmission Fluid Level (Quarts)

## Brake Fluid Condition

- Normal
- Low
- Cloudy
- Contaminated

### Last Fluid Change Date

Enter date...

### Notes on Fluid Levels/Condition

Write something...

## Filter Inspection & Replacement

Checking and replacing air, fuel, and hydraulic filters.

### Air Filter Condition

- Clean
- Slightly Dirty
- Dirty
- Very Dirty

### Fuel Filter Condition

- Clean
- Slightly Dirty
- Dirty
- Very Dirty

**Air Filter Replacement Mileage (Miles)**

Enter a number...

**Fuel Filter Replacement Mileage (Miles)**

Enter a number...

**Air Filter Replacement Date**

Enter date...

**Fuel Filter Replacement Date**

Enter date...

**Notes/Comments about Filter Condition**

Write something...
