

Farm Waste Management Checklist

 Show only Checklist

Display Style
Default 

Manure Storage & Handling

Check procedures for manure storage, composting, and application.

Last Manure Storage Inspection Date

Enter date...

Storage Capacity (Cubic Meters/Gallons)

Enter a number...

Storage Type

- Above-Ground Tank
- Underground Tank
- Manure Lagoon
- Composting Area
- Other

Observations/Notes on Storage Condition

Write something...

Temperature of Manure (Celsius/Fahrenheit)

Enter a number...

Erosion Control Measures

- Grass Strips
- Rip Rap
- Vegetated Buffer
- None

Date of Last Composting Pile Turning

Enter date...

Chemical Waste Disposal

Verify proper disposal of pesticides, herbicides, and other farm chemicals.

Date of Chemical Application/Disposal

Enter date...

Chemical Waste Type

- Pesticide
- Herbicide
- Fertilizer
- Other

Chemical Name/Product

Write something...

Quantity Disposed (Units)

Enter a number...

Disposal Method Used

Write something...

Receipt/Manifest (if applicable)

 Upload File

Container Type

- Original Container
- Triple-Rinsed Container
- Other

Lot Number/Batch Code

Write something...

Used Oil & Lubricant Management

Review procedures for collection, storage, and disposal of used oil and lubricants.

Last Oil Change Date

Enter date...

Quantity of Used Oil Collected (Gallons)

Enter a number...

Storage Container Type

- 55-Gallon Drum
- Smaller Containers
- Bulk Tank

Container Labeling Details (e.g., date, contents)

Write something...

Disposal Method

- Recycling Facility
- Approved Waste Hauler
- On-Farm Recycling (if applicable)

Last Disposal Date

Enter date...

Equipment Cleaning & Washout

Assess protocols for cleaning equipment to prevent contamination.

Last Washout Date

Enter date...

Washout Procedure Followed

Write something...

Water Volume Used (Gallons)

Enter a number...

Cleaning Agent Used

- Soap
- Detergent
- Specialized Cleaner

Equipment Cleaned

- Sprayer
- Planter
- Harvester
- Fertilizer Applicator

Notes/Observations

Write something...

Operator Signature

Spill Prevention & Response

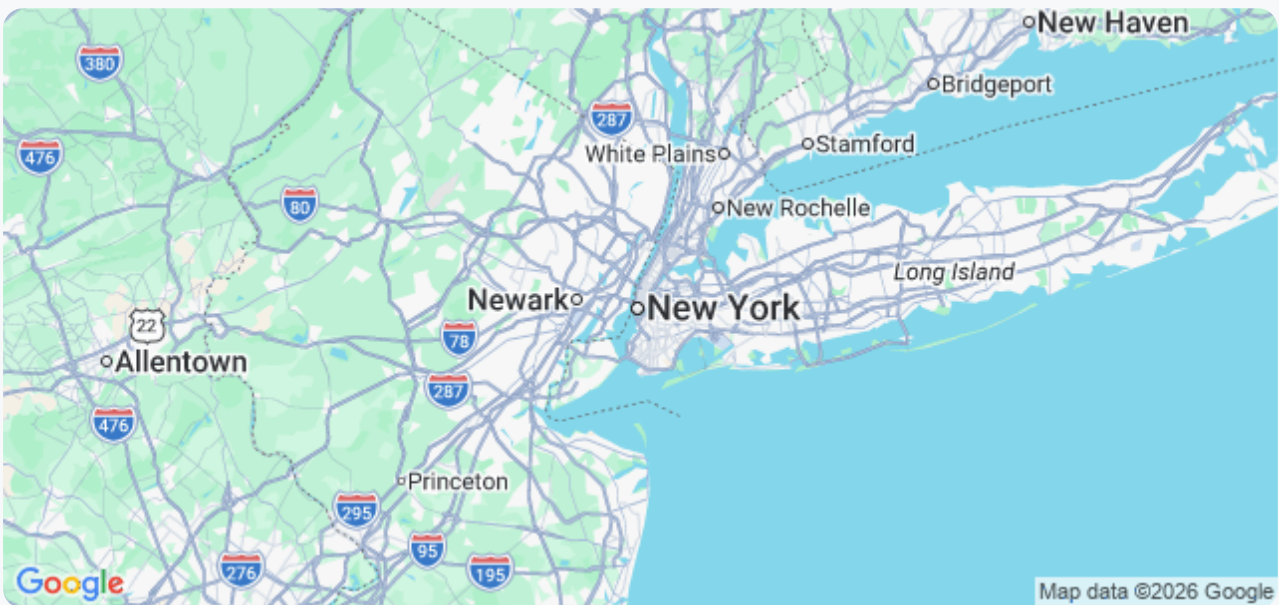

Confirm spill prevention plans and emergency response procedures are in place.

Quantity of Chemicals Stored (Total)

Enter a number...

Location of Spill Kit

 [Set My Current Location](#)

Secondary Containment in Place?

- Yes
- No
- N/A

Date of Last Spill Kit Inspection

Enter date...

Time of Last Spill Kit Restock (if needed)

Enter time...

Description of Any Observed Issues/Deficiencies

Write something...

Staff Trained on Spill Response?

- Yes
- No
- In Progress

Photos of Secondary Containment (if applicable)

 Upload File

Record Keeping & Documentation

Check records of waste generation, disposal, and tracking.

Date of Waste Generation Record

Enter date...

Quantity of Waste Generated (e.g., gallons, tons)

Enter a number...

Waste Type

- Manure
- Chemical
- Oil/Lubricant
- Other

Description of Waste & Disposal Method

Write something...

Date of Waste Disposal

Enter date...

Disposal Method

- Land Application
- Composting
- Hauling to Recycling Facility
- Other

Supporting Documentation (e.g., disposal receipts)

 Upload File

Regulatory Compliance

Verify adherence to local, state, and federal waste management regulations.

Applicable Waste Management Permits?

- Yes
- No
- N/A

Last Permit Renewal Date

Enter date...

Permit Expiration Date (Year)

Enter a number...

Summary of Relevant Regulations

Write something...

Reporting Requirements Met?

- Yes
- No
- N/A

Copies of Permits and Licenses

 Upload File

Container Management

Inspect condition and proper labeling of waste containers.

Number of Waste Containers

Enter a number...

Container Material (e.g., Plastic, Metal)

- Plastic
- Metal
- Other

Container Condition (Visual Inspection)

- Excellent
- Good
- Fair
- Poor

Describe Any Damage Observed

Write something...

Container Labeling Condition

- Clear and Legible
- Faded/Difficult to Read
- Missing/Damaged

Last Inspection Date

Enter date...

Inspector Signature
