Extinguisher Identification & Location

Verify extinguisher locations match approved placement records. Note any discrepancies.

Extinguisher Location (Specific)

 [Set My Current Location](#)

Extinguisher ID/Tag Number

Enter a number...

Matches Approved Location?

Yes

No

Discrepancy Notes (if applicable)

Write something...

Extinguisher Type Verified?

Yes

No

Type Discrepancy Notes (if applicable)

Write something...

Visual Inspection - General Condition

Assess the overall condition of the extinguisher – look for damage, corrosion, or alterations.

Overall Condition - Rust Present?

Yes

No

Minor - Requires Monitoring

Overall Condition - Dents/Damage Present?

- Yes
- No
- Minor - Requires Monitoring

Evidence of Tampering?

- Yes
- No
- Possible - Requires Further Investigation

Label Legibility?

- Clear and Legible
- Slightly Faded
- Illegible - Requires Replacement

Corrosion Level (0-10, 0=None, 10=Severe)

Enter a number...

Extinguisher Case & Body

Check for dents, rust, corrosion, physical damage, and any signs of tampering.

Presence of Rust/Corrosion

- None
- Minor
- Moderate
- Severe

Physical Damage (Dents, Scratches)

- None
- Minor
- Moderate
- Severe

Evidence of Tampering

- None
- Possible
- Confirmed

Number of Dents (if present)

Enter a number...

Description of Damage (if present)

Write something...

Case Secured Properly?

- Yes
- No

Upload Photo of Extinguisher Case (if damage present)

 Upload File

Pressure Gauge

Verify the pressure gauge reading is within the green/operational zone.

Gauge Reading (PSI)

Enter a number...

Gauge Condition

- Within Operational Range (Green)
- Low (Yellow)
- High (Red)
- Damaged/Unreadable

Notes on Gauge Condition (if applicable)

Write something...

Corrective Action Required?

- Yes
- No

Details of Corrective Action (if applicable)

Write something...

Tamper Seals

Confirm that tamper seals are present and unbroken. Note any broken seals.

Seal Present?

Yes

No

Seal Intact?

Yes

No

Seal Condition Notes (if compromised)

Write something...

Seal Photo (if compromised)

 Upload File

Seal Number (if legible)

Enter a number...

Hose/Nozzle & Squeeze Tube (if applicable)

Inspect the hose, nozzle, and squeeze tube for cracks, clogs, or deterioration.

Hose Condition Description

Write something...

Nozzle Condition Description

Write something...

Hose Integrity (Cracks, Kinks)

- No Issues
- Minor Cracks
- Significant Cracks
- Kinks Present
- Damage - Replace Required

Nozzle Condition

- No Issues
- Clogged
- Damaged
- Discolored

Squeeze Tube Integrity (if applicable)

- No Issues
- Cracked
- Collapsed
- Blocked

Instructions & Labels

Ensure labels and operating instructions are legible and free from damage.

Extinguisher Type Verification (e.g., ABC, CO2)

Write something...

Label Legibility - Overall Condition

Write something...

Describe any label damage or obscuring details.

Write something...

Is the extinguisher's hazard classification label correct?

Yes

No

Is the operating instructions clear and visible?

Yes

No

Note any missing information from the label

Write something...

Mounting & Accessibility

Verify extinguisher is securely mounted and easily accessible. Check for obstructions.

Extinguisher Location (GPS Coordinates)

 [Set My Current Location](#)

Mounting Secure?

- Yes
- No
- N/A

Orientation Correct?

- Yes
- No
- N/A

Distance from Obstructions (inches)

Enter a number...

Clear of Aisles/Exits?

- Yes
- No
- N/A

Comments on Accessibility (if any)

Write something...

Record Keeping & Documentation

Review inspection records and ensure they are current and complete.

Inspection Date

Enter date...

Extinguisher ID / Tag Number

Enter a number...

Notes / Observations

Write something...

Inspection Status

- Pass
- Fail
- Conditional Pass

Service Required?

- Yes
- No

Service Recommendations (if applicable)

Write something...

Inspector's Name

Write something...

Inspector Signature

Service & Maintenance Records (if applicable)

Check for documentation of any past maintenance or servicing.

Last Service Date

Enter date...

Description of Service Performed (if any)

Write something...

Service Technician ID/License Number (if applicable)

Type of Service Performed

- Hydrostatic Testing
- Recharge
- Inspection
- Repair
- Other

Upload Service Record/Invoice (if available)
