

Fleet Fueling Station Compliance And Safety Inspection Checklist 2026

Fuel Storage Tank Integrity & Monitoring

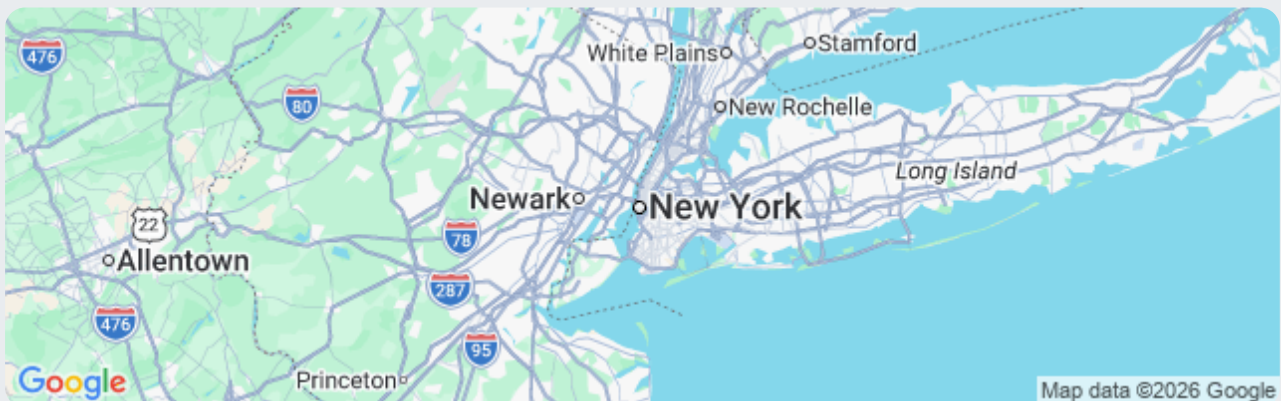

Verification of tank stability, leak detection system functionality, and monitoring of fuel levels and pressure gauges.

Inspection Date

Enter date...

Tank ID/Storage Unit Number

 [Set My Current Location](#)

Visual Leak Inspection Status

- ☐ No Leaks Detected
- ☐ Minor Seepage Noted
- ☐ Major Leak Detected

Current Fuel Level (Gallons/Liters)

Enter a number...

Secondary Containment Condition

- ☐ Intact & Dry
- ☐ Debris/Sediment Present
- ☐ Evidence of Fluid Accumulation

Observations and Maintenance Notes

Inspector Signature

Dispensing Equipment & Hose Inspection

Comprehensive check of fuel nozzles, hoses, breakaways, and pump meters for leaks, wear, or mechanical failure.

Inspection Date

Nozzle Condition

- ☐ Good
- ☐ Worn/Damaged
- ☐ Leaking

Hose Integrity Check

- ☐ No cracks or abrasions detected
- ☐ Visible cracks or surface damage
- ☐ Significant leaks or swelling

Hose Age (Months)

Detected Issues

- ☐ Leaking Nozzle
- ☐ Cracked Hose
- ☐ Broken Breakaway
- ☐ Faulty Meter/Display

Detailed Repair Notes

Write something...

Photo of Equipment Damage

 Upload File

Inspector Signature

Emergency Shutdown & Fire Suppression Systems

Testing of Emergency Power Off (EPO) buttons, fire extinguishers, and automatic fire suppression system readiness.

Emergency Shutdown Button Status

- ☐ Operational/Functional
- ☐ Non-Functional/Requires Repair
- ☐ Not Applicable

Fire Extinguisher Pressure Check

- ☐ In Green Zone (Charged)
- ☐ In Red Zone (Depressurized)
- ☐ Missing/Not Found

Last Fire Suppression System Service Date

Enter date...

Deficiencies or Repairs Required

Inspector Verification

Containment & Spill Prevention Controls

Inspection of secondary containment areas, oil-water separators, spill kits, and absorbent material availability.

Secondary Containment Integrity Status

- ☐ Intact - No visible leaks or debris
- ☐ Maintenance Required - Minor cracks or buildup
- ☐ Critical Issue - Active leak or breach detected

Spill Kit Inventory Checklist

- ☐ Absorbent Pads
- ☐ Absorbent Socks/Booms
- ☐ Disposal Bags & Ties
- ☐ Neutralizing Agents
- ☐ Drain Covers

Oil-Water Separator Maintenance Interval (Days)

Enter a number...

Spill Prevention Corrective Actions

Write something...

Inspector Verification

Electrical & Grounding Safety

Verification of static grounding connections, explosion-proof lighting, and electrical panel integrity to prevent ignition.

Grounding Wire Integrity Status

- ☐ Secure and Undamaged
- ☐ Corroded or Loose
- ☐ Missing or Severed

Explosion-Proof Lighting Condition

- ☐ Operational/Intact
- ☐ Damaged/Cracked Lens
- ☐ Non-functional

Voltage Reading (Main Panel)

Enter a number...

Observed Electrical Anomalies

Write something...

Corrective Action Required

Inspector Verification

Signage, Labeling & Regulatory Compliance

Review of NFPA/OSHA required hazard signage, SDS (Safety Data Sheet) accessibility, and tank marking clarity.

Hazard Signage Condition

- ☐ Clear and Visible
- ☐ Faded/Damaged
- ☐ Missing

Emergency Contact Information Visibility

- ☐ Compliant
- ☐ Non-Compliant

Required Regulatory Labels Present

- ☐ Flammable Liquid Warnings
- ☐ No Smoking Prohibitions
- ☐ Tank Contents Identification
- ☐ Maximum Capacity Marks

Discrepancies or Missing Signage Details

Write something...

Photo Evidence of Compliance

Inspector Attestation

Site Perimeter & Security Assessment

Evaluation of perimeter fencing, CCTV functionality, lighting levels, and access control for unauthorized personnel.

Perimeter Fencing Integrity

- ☐ Intact and Secure
- ☐ Damaged/Breached
- ☐ Needs Maintenance

Security Lighting Functionality

- ☐ All lights operational
- ☐ Partial outage detected
- ☐ Significant dark spots identified

Security Features Inspected

- ☐ CCTV Cameras
- ☐ Motion Sensors
- ☐ Access Gates
- ☐ Security Lighting
- ☐ Perimeter Fencing

Security Vulnerability Observations

Write something...

Inspector Verification

Personnel Safety & PPE Availability

Audit of mandatory personal protective equipment (PPE) availability and employee access to safety training protocols.

Available PPE Items Verified

- ☐ Safety Gloves
- ☐ Safety Goggles/Face Shields
- ☐ High-Visibility Vests
- ☐ Nitrile/Chemical Resistant Gloves
- ☐ Eye Wash Station Access

PPE Condition Status

- ☐ All items in good condition
- ☐ Some items require replacement
- ☐ Critical PPE missing/damaged

PPE Deficiency Details
