

Hazardous Waste Management Checklist Template

Hazardous Waste Identification & Characterization

Determine if materials are hazardous wastes based on regulatory definitions and waste codes.

Describe the process for determining if a waste is hazardous.

Write something...

Does the waste exhibit a characteristic (Ignitability, Corrosivity, Reactivity, Toxicity)?

- ☐ Yes
- ☐ No
- ☐ Unknown

pH Value (if applicable for corrosivity)

Enter a number...

What EPA Waste Codes apply to this waste?

- ☐ D001
- ☐ D002
