

Intermodal Transfer Safety & Equipment Verification 2026 Checklist

Pre-Transfer Site Preparation

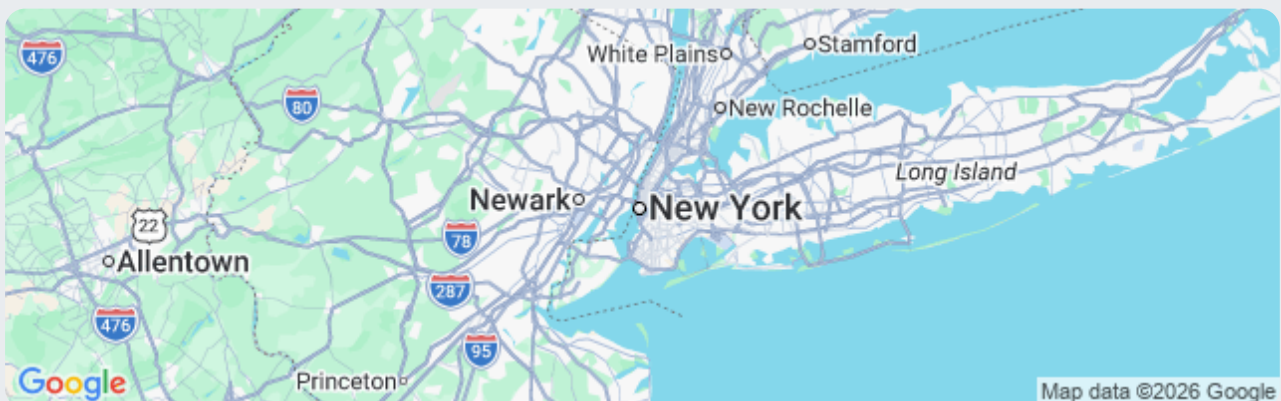

Verification of yard area clearance, signaling systems, and communication protocols between rail, road, and maritime teams.

Inspection Date

Shift Start Time

Transfer Zone ID

 [Set My Current Location](#)

Site Clearance Status

- ☐ Cleared and Ready
- ☐ Obstructions Detected
- ☐ Pending Maintenance

Pre-Transfer Safety Equipment Present

- ☐ Safety Cones/Barriers
- ☐ Warning Signage
- ☐ Radio Communication Devices
- ☐ Spill Kits

Identified Site Hazards

Write something...

Site Supervisor Approval

Equipment & Machinery Inspection

Safety checks for reach stackers, cranes, forklifts, and chassis, including hydraulic systems, tire integrity, and lifting attachments.

Inspection Date

Enter date...

Equipment Type

- ☐ Reach Stacker
- ☐ Container Crane
- ☐ Forklift
- ☐ Chassis
- ☐ Terminal Tractor

Pre-Operation Safety Checks Completed

- ☐ Hydraulic Leak Inspection
- ☐ Tire/Wheel Condition Check
- ☐ Braking System Test
- ☐ Warning Lights & Alarms Functionality
- ☐ Fluid Levels (Oil/Coolant/Hydraulic)

Equipment Hour Meter Reading

Enter a number...

Identified Defects or Maintenance Notes

Write something...

Photos of Equipment Condition

 Upload File

Inspector Signature

Container & Chassis Integrity Check

Inspection of container structural integrity, door seals, locking mechanisms, and chassis frame/suspension condition for intermodal transport.

Inspection Date

Enter date...

Container ID Number

Write something...

Container Structural Integrity Check

- ☐ No visible dents or deformations
- ☐ Door seals and gaskets intact
- ☐ No holes or punctures in walls/roof
- ☐ Corner castings are undamaged

Chassis Condition Status

- ☐ Excellent
- ☐ Fair - Minor Wear
- ☐ Poor - Requires Maintenance

Observed Damage Details

Write something...

Photo Evidence of Container/Chassis

 Upload File

Inspector Authorization

Personnel Safety & PPE Compliance

Ensuring all operators and ground staff are wearing appropriate high-visibility gear, helmets, and following specialized intermodal safety training.

Required PPE Verified

- ☐ High-Visibility Vest
- ☐ Safety Helmet (Hard Hat)
- ☐ Steel-Toed Boots
- ☐ Safety Gloves
- ☐ Safety Glasses/Eye Protection

Safety Training Status

- ☐ Fully Certified
- ☐ Training Expiring Soon
- ☐ Requires Immediate Retraining

Personnel ID/Badge Number

Write something...

Safety Supervisor Verification

Safety Inspection Date

Enter date...

Load Securing & Stability Verification

Validation of twistlock engagement, twistlock functionality, and the proper distribution of weight across the intermodal unit.

Twistlock Engagement Status

- ☐ Fully Engaged
- ☐ Partially Engaged
- ☐ Not Engaged

Securing Equipment Inspected

- ☐ Ratchet Straps
- ☐ Load Bars
- ☐ Dunnage Bags
- ☐ Chains & Tensioners
- ☐ Lashing Belts

Weight Distribution Variance (kg)

Enter a number...

Photo Evidence of Load Securing

Inspector Verification Signature

Stability Issues or Observations

Write something...

Hazardous Material (HAZMAT) Segregation

Verification of dangerous goods labeling, segregation requirements, and compatibility of transferred goods according to IMDG/ADR standards.

Hazardous Class Identification

- ☐ Class 1: Explosives
- ☐ Class 2: Gases
- ☐ Class 3: Flammable Liquids
- ☐ Class 4: Flammable Solids
- ☐ Class 5: Oxidizing Substances
- ☐ Class 6: Toxic/Infectious Substances
- ☐ Class 7: Radioactive Material
- ☐ Class 8: Corrosives
- ☐ Class 9: Miscellaneous

Segregation Requirements Met

- ☐ Away from incompatible materials
- ☐ Separated by required distance/barrier
- ☐ Properly labeled and placarded
- ☐ No leaks or container breaches detected

UN Number Verification

Write something...

Safety Data Sheet (SDS) Upload

 Upload File

Safety Officer Verification

Documentation & Digital Handover

Verification of Bill of Lading (BoL), container numbers, seal integrity logs, and real-time TMS data synchronization.

Transfer Completion Date

Transfer Completion Time

Container Identification Number

Documentation Status

- ☐ All Documents Verified
- ☐ Missing Documentation
- ☐ Discrepancy Found

Bill of Lading (BoL) Scan

 Upload File

Signed Delivery Receipt

 Upload File

Logistics Supervisor Authorization

Post-Transfer Area Clearance

Final inspection of the transfer zone to ensure no debris, loose debris, or abandoned equipment remains in the transit path.

Area Clearance Status

- ☐ Clear and Safe
- ☐ Clear with Minor Debris (Action Required)
- ☐ Hazard Detected (Stop Operations)

Debris/Obstruction Details
