

Kanban System Review Checklist

System Overview & Goals

Assess the overall purpose and effectiveness of the Kanban system in achieving manufacturing objectives. This section covers alignment with broader business goals.

Write something	
What is the target Overall Equ	ipment Effectiveness (OEE) that this Kanban
Enter a number	
Does this Kanban system alig Yes No Partially	n with the overall Manufacturing Strategy?

Enter a number Identify Bottlenecks: Describe any observed bottlenecks in the workflow.	Average Total Cycle Time (all stages)	
Write something	Identify Bottlenecks: Describe any observed bottlenecks in the	workflow.
	Write something	
		J

Bottleneck Severity (if applicable)	
Minor	
Moderate	
Significant	
Proposed Solutions for Bottlenecks: Outline any proposed solutions to address identified bottlenecks.	
Write something	
Date of Last Cycle Time Measurement	
Enter date)
Percentage Change in Total Cycle Time (vs. last review)	
Enter a number)
Work in Progress (WIP) Limits Verify the appropriateness and effectiveness of WIP limits across all stages of the)
Work in Progress (WIP) Limits Verify the appropriateness and effectiveness of WIP limits across all stages of the manufacturing process.	
Work in Progress (WIP) Limits Verify the appropriateness and effectiveness of WIP limits across all stages of the manufacturing process. Current WIP Limit - Stage 1 (e.g., Cutting)	

Enter a number	
Average WIP Levels - Stage 1	
Enter a number	
Average WIP Levels - Stage 2	
Enter a number	
Average WIP Levels - Stage 3	
Enter a number	
Are current WIP limits optimal?	
Yes	
No No	
Unsure	
Explanation if WIP Limits are not optimal.	

Replenishment & Ordering

Review the replenishment signals, order points, and ordering processes to ensure material flow is responsive and accurate.

Enter a number Reorder Point (ROP) Accuracy (average deviation) Enter a number Replenishment Signal Type Kanban Card Digital Signal Scheduled Order Manual Request Describe any discrepancies between actual material flow and replenishment signals. Write something Date of last replenishment process review Enter date Lead Time Accuracy (average days) Enter a number	urrent Safety Stock Levels (for critical materials)

Supplier Performance - On-Time Delivery (Critical Materials) Excellent (98-100%) Good (90-97%) Average (80-89%) Needs Improvement (Below 80%)
Team Performance & Training Assess team understanding and adherence to Kanban principles, identify training needs, and gather feedback for continuous improvement.
Team Member Understanding of Kanban Principles (1-5, 1=Poor, 5=Excellent) Enter a number
Frequency of Kanban Training Sessions (per month) Enter a number
Describe any observed deviations from established Kanban processes by team members. Write something
Which of the following training topics are needed? (Select all that apply) New Team Member Onboarding Advanced Kanban Techniques Problem Solving and Bottleneck Analysis Data Analysis and Reporting

How effective is the current method for sharing Kanban updates and changes?
Very Effective
☐ Effective
☐ Neutral
☐ Ineffective
Very Ineffective
What suggestions do team members have to improve Kanban understanding and adherence?
Write something
Date of last Kanban training session.
Enter date
Metrics & Reporting
xamine key performance indicators (KPIs) related to the Kanban system and identify ends or areas requiring attention.
Average Lead Time (Days)
Enter a number
Cycle Time for Stage 1 (Minutes)
Enter a number

Number of Cards Completed per Shift	
Enter a number	
Percentage of Cards Delivered On Time	
Enter a number	
Brief Summary of Recent Metric Trends	
Write something	
	<u></u>].
Are metrics being tracked and visualized effectively?	
□ No	
Partially	
Attach KPI Report (if applicable)	
♣ Upload File	
Date of Last KPI Review	
Enter date	

System Adherence & Continuous Improvement

Evaluate the extent to which the team is consistently following Kanban processes and explore opportunities for refinement.

Enter a number		
How frequently are Kanba	an reviews conducted?	
Daily	an reviews conducted.	
Weekly		
Bi-weekly		
Monthly		
Less than Monthly		
Describe any deviations f	rom standard Kanban practices observed.	
Write something		
Which improvement sugg	jestions have been implemented since the last	
Which improvement suggreview?	jestions have been implemented since the last	
Which improvement suggreview? Improved Card Design	jestions have been implemented since the last	
Which improvement suggreview? Improved Card Design Adjusted WIP Limits	jestions have been implemented since the last
