

Livestock Breeding And Calving Cycle Checklist 2026

Pre-Breeding Preparation and Nutrition Management

Steps to ensure optimal nutrition, body condition scoring, and health screening for breeding stock prior to the mating season.

Nutritional Assessment Date

Average Body Condition Score (BCS) of Herd

- ☐ Underweight
- ☐ Ideal
- ☐ Overweight

Supplements Administered

- ☐ Vitamin E/Selenium
- ☐ Mineral Blocks
- ☐ Protein Boost
- ☐ Calcium Supplements

Daily Forage Intake (kg per head)

Enter a number...

Vaccination and Deworming Notes

Write something...

Farm Manager Verification

Heat Detection and Breeding Protocol

Daily monitoring procedures for estrus detection, semen/bull inspection, and recorded breeding dates and methods.

Date of Heat Detection/Breeding

Enter date...

Breeding Method

- ☐ Natural Service
- ☐ Artificial Insemination (AI)
- ☐ Embryo Transfer

Sire/Bull ID

Write something...

Heat Intensity Score (1-5)

Enter a number...

Observed Heat Signs

- ☐ Increased Activity
- ☐ Mucus Discharge
- ☐ Reduced Appetite
- ☐ Mounting Behavior

Technician/Breeder Verification

Pregnancy Diagnosis and Gestation Monitoring

Scheduled ultrasound or palpation timelines, nutritional adjustments for pregnant dams, and mid-pregnancy health checks.

Pregnancy Diagnosis Date

Enter date...

Diagnosis Method

- ☐ Ultrasound
- ☐ Manual Palpation
- ☐ Visual Observation

Pregnancy Status

- ☐ Confirmed Pregnant
- ☐ Confirmed Non-Pregnant
- ☐ Inconclusive

Estimated Gestation Days Remaining

Enter a number...

Nutritional Supplements Administered

- ☐ Vitamin E
- ☐ Mineral Block
- ☐ Calcium Supplement
- ☐ Iron Injection

Observations and Health Notes

Write something...

Upload Ultrasound/Diagnostic Image

 Upload File

Veterinarian or Technician Verification

Pre-Calving Maternity Preparation

Preparation of calving pens, disinfection of birthing areas, and assembly of essential medical and emergency kits.

Preparation Completion Date

Enter date...

Maternity Pen Sanitization Status

- ☐ Completed
- ☐ In Progress
- ☐ Pending

Required Medical Supplies Checklist

- ☐ Antiseptic/Iodine
- ☐ Sterile Gloves
- ☐ Forceps/Instruments
- ☐ Energy Supplements/Glucose
- ☐ Identification Tags

Number of Prepared Pens

Notes on Equipment or Nutritional Adjustments

Supervisor Verification

Calving Process and Delivery Monitoring

Real-time observation protocols for labor progression, assistance procedures, and immediate post-birth assessment of dam and calf.

Date of Delivery

Time of Birth

Delivery Type

- ☐ Spontaneous/Unassisted
- ☐ Assisted (Manual)
- ☐ Assisted (Instrumental)
- ☐ Emergency C-Section

Number of Offspring

Enter a number...

Immediate Complications Observed

- ☐ Dystocia
- ☐ Fetal Distress
- ☐ Prolapse
- ☐ Maternal Exhaustion
- ☐ None

Detailed Delivery Observations

Write something...

Birth Photos/Video Evidence

 Upload File

Attending Veterinarian or Manager Signature

Neonatal Care and Post-Partum Management

Vital tasks including colostrum intake verification, navel dipping, weighing, and umbilical care for newborn calves.

Date of Birth/Birth Event

Time of Birth

Colostrum Intake Status

- ☐ Adequate Intake
- ☐ Delayed Intake
- ☐ Failure to Nurse

Birth Weight (kg/lbs)

Immediate Procedures Completed

- ☐ Navel Dipping
- ☐ Ear Tagging
- ☐ Vitamin/Mineral Injection
- ☐ Weight Recording

Observation Notes and Anomalies

Write something...

Upload Birth Photo or Medical Doc

 Upload File

Attending Caretaker Signature

Post-Calving Dam Recovery and Health

Monitoring the mother for postpartum complications, uterine involution, and lactation stability.

Date of Calving

Enter date...

Body Condition Score (BCS) Post-Partum

- ☐ 1 - Very Thin
- ☐
- ☐ 3 - Ideal
- ☐ 4 - Fat
- ☐ 5 - Very Fat

Temperature (°C/°F)

Enter a number...

Observed Post-Partum Complications

- ☐ Retained Placenta
- ☐ Uterine Infection/Metritis
- ☐ Mastitis
- ☐ Reduced Appetite
- ☐ None/Normal

Veterinary Intervention Notes

Write something...

Attending Caretaker Signature

Data Logging and 2026 Record Compliance

Finalizing all digital or paper records, updating herd management software, and ensuring 2026 breeding data integrity.

Date of Record Completion

Data Entry Method

- ☐ Digital Management Software
- ☐ Manual Paper Log
- ☐ Sensor/Automated Data Import

Compliance Documents Verified

- ☐ Breeding Logs
- ☐ Vaccination Records
- ☐ Nutrition/Feed Logs
- ☐ Calving Incident Reports

Upload Verified Breeding Certificate/Scan
