

Livestock Breeding Records Checklist

Animal Identification & Pedigree

Records pertaining to the individual animals involved in breeding, including their lineage.

Animal ID/Tag Number

Write something...

Animal Name (if applicable)

Write something...

Date of Birth

Enter a number...

Age at Breeding (in months/years)

Enter a number...

Sex

☐ Male

☐ Female

Breed

Photo/Scan of Pedigree Certificate (if available)

 Upload File

Notes on animal history/characteristics

Write something...

Breeding Event Details

Specific information about the act of breeding and the date it occurred.

Breeding Date

Enter date...

Breeding Method

- ☐ Natural Service
- ☐ Artificial Insemination (AI)
- ☐ Embryo Transfer

Semen Source (if AI)

Number of Attempts (if AI)

Enter a number...

Notes/Observations about Breeding Event

Write something...

Breeding Status

- ☐ Successful
- ☐ Unsuccessful
- ☐ Pending

Breeding Location

 [Set My Current Location](#)

Gestation & Birth Records

Details about the pregnancy period and the birth of offspring.

Date of Last Breeding Event

Enter date...

Expected Due Date/Calving Date

Enter date...

Actual Calving/Birthing Date

Enter date...

Gestation Length (days)

Enter a number...

Birthing Type (e.g., Natural, Assisted)

- ☐ Natural
- ☐ Assisted
- ☐ Cesarean

Number of Offspring Born

Enter a number...

Sex of Offspring (First Born)

- ☐ Male
- ☐ Female
- ☐ Unknown

Birth Complications/Notes

Write something...

Photo/Video of Birth (Optional)

 Upload File

Offspring Information

Records documenting the characteristics and subsequent management of the offspring.

Birth Weight (kg)

Enter a number...

Date of Birth

Enter date...

Sex

☐ Male

☐ Female

Breed/Type (if mixed)

Distinctive Markings/Physical Characteristics

Write something...

Number Weaned (if applicable)

Enter a number...

Date of Sale/Disposal (if applicable)

Enter date...

Notes/Observations (Growth, Behavior, etc.)

Write something...

Health & Reproduction History

Tracking of any health concerns or reproductive challenges for breeding animals.

Date of Last Reproductive Exam

Enter date...

Reproductive Exam Notes (Veterinarian)

Write something...

Number of Previous Pregnancies (Female)

Enter a number...

Number of Previous Calves/Kids/Lambs/Foals (Male)

Enter a number...

History of Reproductive Issues (Female)

- ☐ None
- ☐ Retained Placenta
- ☐ Dystocia (Difficult Birthing)
- ☐ Infertility
- ☐ Uterine Infection
- ☐ Cystic Ovaries
- ☐ Other (Specify)

History of Reproductive Issues (Male)

- ☐ None
- ☐ Low Sperm Count
- ☐ Poor Libido
- ☐ Physical Injury
- ☐ Other (Specify)

Details of Previous Reproductive Problems & Treatment

Write something...

Date of Last Insemination (if applicable)

Enter date...

Breeding Strategy & Goals

Documentation of the rationale behind breeding choices and desired outcomes.

Overall Breeding Objective

Write something...

Target Improvement Percentage (e.g., growth rate, milk yield)

Enter a number...

Desired Traits (select all that apply)

- ☐ Growth Rate
- ☐ Milk Production
- ☐ Meat Quality
- ☐ Disease Resistance
- ☐ Reproductive Efficiency
- ☐ Conformation/Structure
- ☐ Temperament

Target Number of Offspring per Breeding Cycle

Enter a number...

Breeding Method (e.g., Natural, AI, Embryo Transfer)

- ☐ Natural Mating
- ☐ Artificial Insemination (AI)
- ☐ Embryo Transfer

Specific Culling Strategy (if applicable)

Write something...

Date of Strategy Implementation

Enter date...
