

Parking Garage Safety & Lighting Inspection Checklist (Daily)

 Show only Checklist

Display Style
Default 

General Safety & Security

Overall assessment of the garage's safety and security features.

Garage Gate Operation

- Operating Normally
- Malfunctioning - Needs Repair
- Out of Service

Security Camera Functionality

- All Cameras Operational
- Some Cameras Offline
- All Cameras Offline

Visible Security Personnel Count

Enter a number...

Evidence of Vandalism or Damage

- None
- Minor Damage - Documented
- Significant Damage - Report Required

Security Incident Notes (if any)

Write something...

Emergency Exit Doors Functional?

- Yes - Unobstructed
- No - Obstructed
- No - Damaged

Photos of Security Concerns

 Upload File

Lighting - General

Inspection of lighting levels throughout the garage and surrounding areas.

Ambient Light Level (Foot-candles) - General Area

Overall Lighting Condition - General Area

- Excellent - Bright and Even
- Good - Minor Dimness
- Fair - Noticeable Dimness
- Poor - Significant Dimness

Areas of Dimness/Shadows?

- Near Entrances
- Along Walls
- Under Vehicles
- Around Pillars
- None Observed

Notes on Lighting Issues (e.g., flickering, buzzing)

Emergency Lighting Functionality (brief test)

- Functional
- Not Functional - Requires Attention
- Needs Further Testing

Lighting - Specific Areas

Detailed lighting check of critical areas like entrances, stairwells, and ramps.

Lux Level at Entrance 1 (Foot Candles)

Lux Level at Entrance 2 (Foot Candles)

Stairwell 1 Lighting Condition

- Adequate
- Dim
- Malfunctioning

Ramp 1 Lighting Condition

- Adequate
- Dim
- Malfunctioning

Elevator/Service Area Lighting Condition

- Adequate
- Dim
- Malfunctioning

Areas with Potential Shadowing

- Near Columns
- Under Stairwells
- Around Elevator
- None

Notes on Specific Lighting Issues

Write something...

Ramps & Stairwells

Focuses on the structural integrity and safety of ramps and stairwells.

Ramp Gradient (Slope) - Max 1:12

Enter a number...

Stairwell Handrail Integrity

- Secure & Stable
- Loose/Damaged
- Missing

Stair Treads Condition

- Good - No Slippage
- Moderate Wear
- Significant Wear/Damage

Stairwell Width (Minimum 2.5m)

Enter a number...

Ramp Surface Condition

- Good - No Hazards
- Minor Cracks/Discoloration
- Significant Damage/Potholes

Notes on Ramp/Stairwell Issues (if any)

Write something...

Emergency Lighting in Stairwells

- Working
- Not Working
- Unknown

Entrances & Exits

Checks accessibility, signage, and security of garage entrances and exits.

Gate Operation - Entrance

- Operating Normally
- Malfunctioning
- Blocked

Gate Operation - Exit

- Operating Normally
- Malfunctioning
- Blocked

Entrance/Exit Door Status (Open/Closed)

Enter a number...

Emergency Exit Accessibility

- Clear & Accessible
- Obstructed
- Inoperable

Emergency Exit Signage Condition

Write something...

Security Camera Functionality at Entrances/Exits

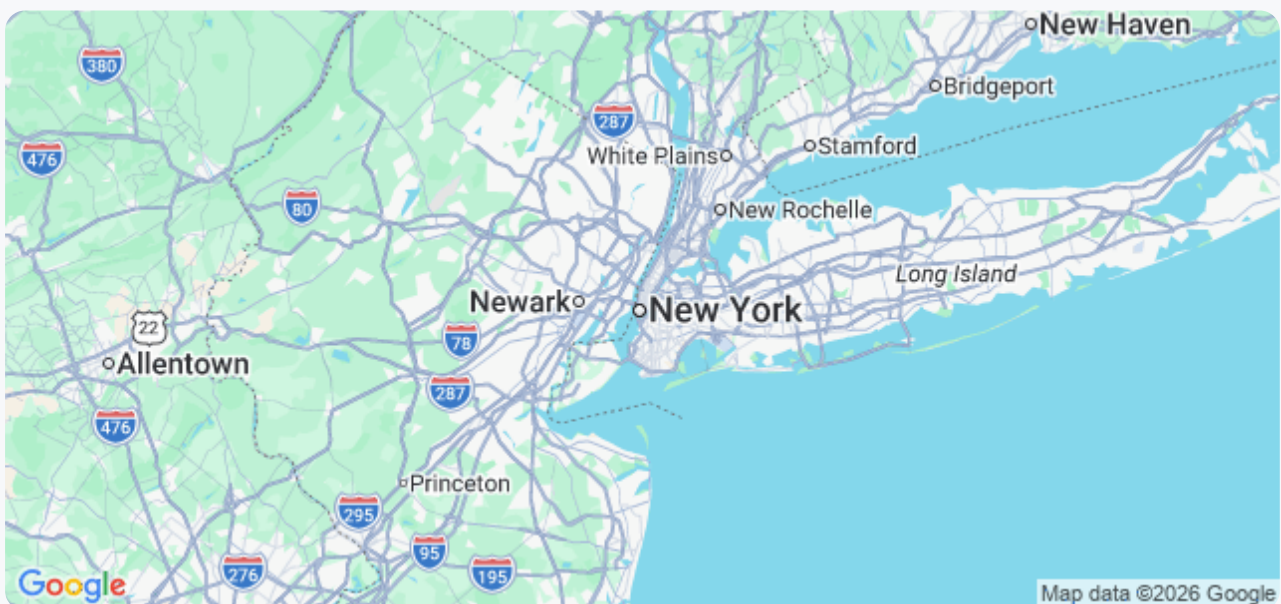

Write something...

Lighting at Entrances/Exits

- Adequate
- Dim/Insufficient
- Out

Location of any observed security concerns

 [Set My Current Location](#)

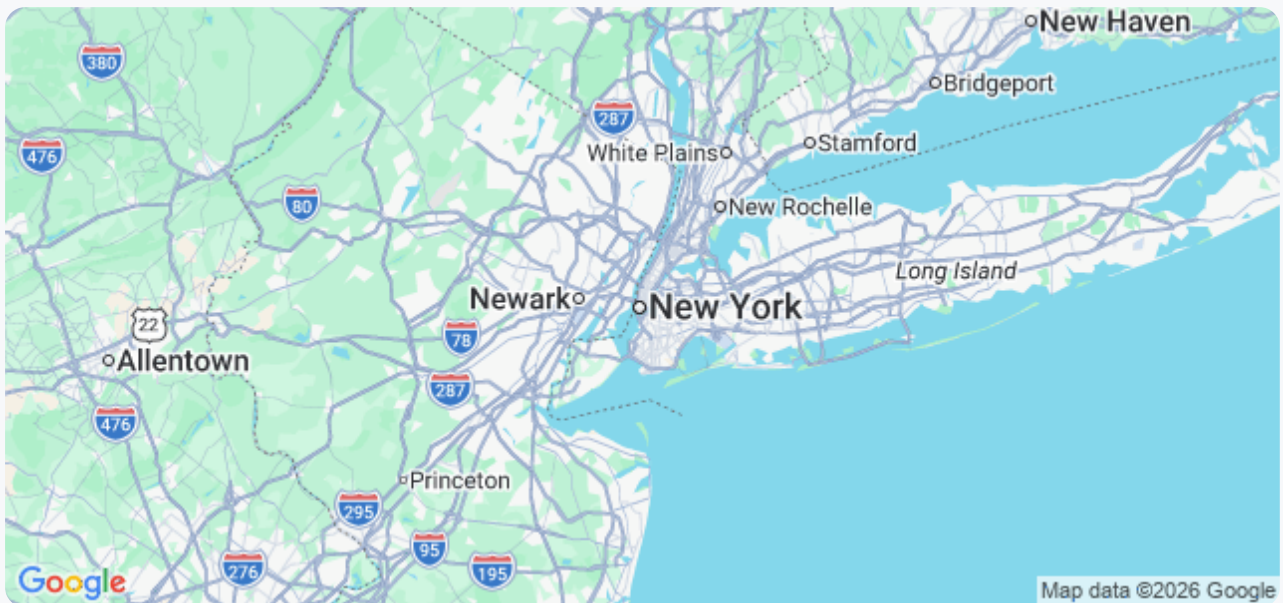

Pavement & Markings

Evaluation of pavement condition and visibility of parking lines and directional markings.

Identify areas of significant surface cracks or potholes.

[📍 Set My Current Location](#)

Measure width of largest crack observed (inches).

Enter a number...

Select pavement conditions observed:

- Cracking (minor)
- Cracking (moderate)
- Cracking (severe)
- Potholes (minor)
- Potholes (moderate)
- Potholes (severe)
- Spalling
- Rutting
- None

Condition of parking lines (overall):

- Excellent - Clearly visible
- Good - Mostly visible
- Fair - Some fading/wear
- Poor - Difficult to see

Upload photos of pavement issues (required for 'Fair' or 'Poor' conditions)

 Upload File

Describe any oil or chemical stains observed. (If any)

Write something...

Emergency Systems

Verification of the functionality of emergency systems like fire alarms and emergency call boxes.

Fire Alarm System Test Result (0-100)

Emergency Call Boxes Functionality

- Functional
- Needs Repair
- Out of Service

Emergency Lighting Status

- Operational
- Needs Attention
- Non-Functional

Last Fire Extinguisher Inspection Date

Time of Emergency Drill (if conducted)

Enter time...

Notes Regarding Emergency System Issues

Write something...

Signage & Communication

Inspection of safety signage, directional signs, and communication systems.

Emergency Contact List Visible & Current?

- Yes
- No
- N/A

Fire Exit Signs Clear and Illuminated?

- Yes
- No
- Partial Obscurity

Directional Signage Accurate & Legible?

- Yes
- No
- Needs Adjustment

Notes on Signage/Communication Issues (if any)

Write something...

PA System Functional (if applicable)?

- Yes
- No
- N/A

Time of Last PA System Test (if applicable)

Enter a number...

Emergency Call Boxes Operational (if applicable)?

- Yes
- No
- N/A
