

# Port Waste Management Checklist Template

## Waste Stream Identification & Categorization

Identify and categorize all waste streams generated at the port (e.g., cargo debris, oily water, dredged material, solid waste).

### Identify primary waste streams generated:

- ☐ Cargo Debris (Packaging, Pallets)
- ☐ Oily Water
- ☐ Solid Waste (Food, Paper)
- ☐ Hazardous Waste (Batteries, Chemicals)
- ☐ Dredged Material
- ☐ Construction & Demolition Waste
- ☐ Shipbreaking Waste

### Detailed Description of Largest Volume Waste Stream:

Write something...

### Estimated Volume (m<sup>3</sup>) of Oily Water Generated Daily:

Enter a number...

### Describe any unusual or specific waste types encountered:

Write something...
