Daily Inspections (Pre-Shift)

Quick checks performed before each shift to ensure basic functionality and identify immediate issues.

Inspection Start Time

Enter time...

House Temperature (°F)

Enter a number...

Humidity (%)

Enter a number...

Feeder Functionality

- Working
- Slow
- Not Working

Waterer Functionality

- Working
- Slow
- Not Working

Signs of Distress (Check all that apply)

- Lethargy
- Coughing
- Sneezing
- Ruffled Feathers
- None

Notes/Observations

Write something...

Weekly Maintenance

More thorough checks and preventative actions performed weekly.

Feeder Motor Voltage (V)

Water Tank Water Level (gallons)

Cooler Fan Operation (Normal/Abnormal)

- Normal
- Abnormal

Check for Leaks (Water/Feed)

- Water Leak
- Feed Leak
- No Leak Found

Date of Last Lubrication

Time of last inspection

Monthly Maintenance

Detailed inspections and maintenance tasks performed monthly to ensure long-term reliability.

Fan Motor RPM

Belt Tension (in lbs)

Notes on Unusual Sounds or Vibrations

Cooling System Performance

- Excellent
- Good
- Fair
- Poor

Last Filter Replacement Date

Enter date...

Water Tank Level (gallons)

Enter a number...

Areas requiring cleaning

- Feeders
- Waterers
- Flooring
- Ventilation System

Technician Signature

Seasonal Maintenance (Spring/Fall)

Tasks specific to seasonal changes, preparing equipment for peak production or winter storage.

Last Spring/Fall Inspection Date

Enter date...

Ventilation Fan Speed Adjustment (Spring/Fall)

Enter a number...

Heater Inspection Result (Fall)

- Pass
- Needs Repair
- Replace

Spring/Fall Maintenance Tasks Completed

- Clean Gutters
- Inspect Roof
- Check Sprinkler System
- Lubricate Moving Parts

Notes on Spring/Fall Adjustments

Write something...

Photo Documentation (Optional)

 Upload File

Annual Overhaul

Major inspections, repairs, and component replacements performed annually.

Detailed Description of Work Performed

Write something...

Operating Hours Recorded

Enter a number...

Date of Overhaul Completion

Enter date...

Photos of Inspection/Repairs

 Upload File

Parts Replaced - Fan Motors

Enter a number...

Parts Replaced - Heaters

Enter a number...

Condition Assessment (Post Overhaul)

- Excellent
- Good
- Fair
- Poor

Technician Signature

Water System Maintenance

Specific checks and maintenance for watering systems, including drinkers, tanks, and pumps.

Water Tank Level (inches)

Enter a number...

Water Pressure (PSI)

Enter a number...

Water Temperature (°F)

Enter a number...

Water Quality (Visual Inspection)

- Clear
- Slightly Cloudy
- Cloudy
- Murky

Notes on Water Quality/Appearance

Write something...

Last Filter Change Date

Enter date...

Filter Micron Rating

Enter a number...

Water Pump Operational Status

- Operational
- Noisy
- Not Operational

Ventilation System Maintenance

Inspection and upkeep of ventilation fans, cooling systems, and air filtration.

Fan Motor RPM

Air Intake Temperature (°C)

Exhaust Temperature (°C)

Fan Belt Condition

- Good
- Fair
- Needs Replacement

Air Filter Condition

- Clean
- Slightly Dirty
- Needs Cleaning/Replacement

Last Air Filter Replacement Date

Time of Inspection

Notes/Observations

Feeding System Maintenance

Maintenance of feeders, augers, and automated feeding systems.

Auger Motor RPM

Feeder Motor Amperage

Enter a number...

Feeder Chain Condition

- Excellent
- Good
- Fair
- Poor

Last Belt Cleaning Date

Enter date...

Bin Level (inches)

Enter a number...

Notes/Observations

Write something...

Lubrication Performed?

- Yes
- No

Egg Handling Equipment Maintenance

Checks and cleaning of egg collection belts, graders, and packaging equipment.

Belt Speed (feet per minute)

Enter a number...

Egg Count (per hour)

Enter a number...

Belt Condition

- Excellent
- Good
- Fair
- Poor

Notes on Egg Quality Issues (e.g., cracks, dirt)

Write something...

Last Cleaning Date

Enter date...

Time of Last Inspection

Components Inspected (check all that apply)

- Egg Conveyor Belt
- Grading System
- Candling Machine
- Packing Machine
- Automated Tray Filler

Lighting System Maintenance

Inspection and replacement of bulbs and fixtures in poultry houses.

Last Bulb Replacement Date

Number of Burned Out Bulbs Found

Bulb Type

- LED
- Incandescent
- Fluorescent

Voltage Reading (V)

Enter a number...

Time of Voltage Reading

Enter time...

Notes on Lighting Performance

Write something...

Fixture Condition

- Excellent
- Good
- Fair
- Poor
