

Public Transit Station Accessibility Audit Checklist Template

 Show only Checklist

Display Style
Default 

Entrance and Pathways

Assessment of access routes to the station, including ramps, elevators, and pedestrian walkways.

Ramp Gradient (%)

Enter a number...

Elevator Operational Status

- Operational
- Out of Service
- Maintenance

Pathway Width (meters)

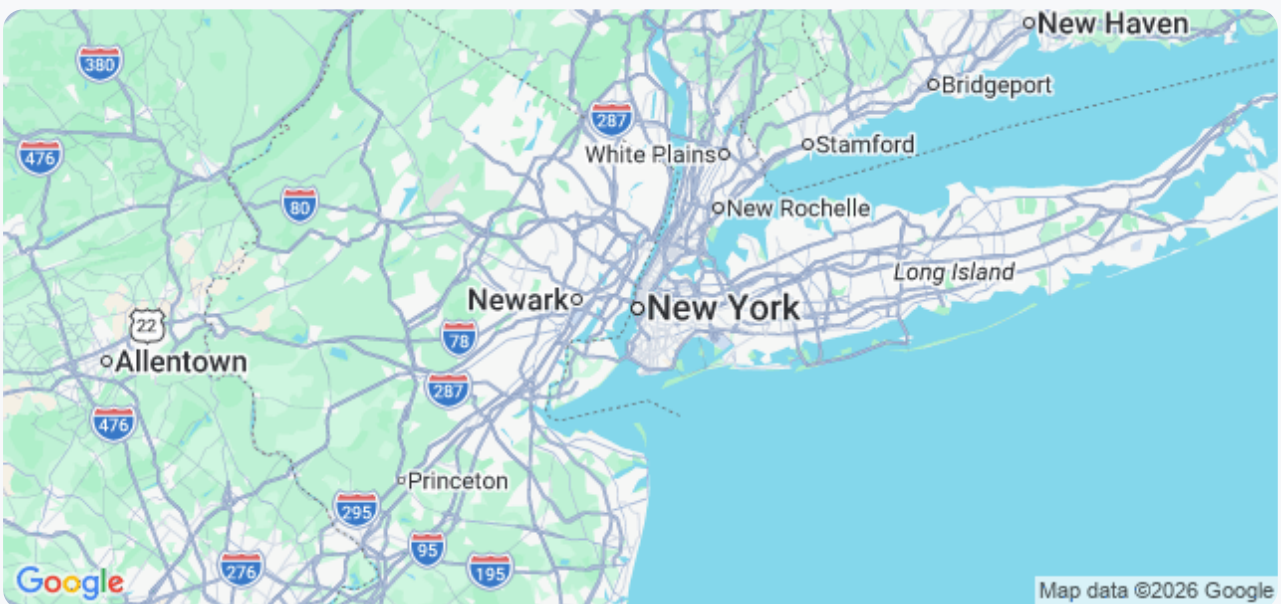

Enter a number...

Pathway Surface Condition

- Smooth
- Uneven
- Cracked
- Damaged

Location of Obstruction (if any)

 [Set My Current Location](#)

Details of any Pathway Obstructions

Write something...

Tactile Ground Surface Indicators (TGSIs)

Verification of presence and condition of TGSIs at platform edges, crosswalks, and key decision points.

Number of TGSIs Present

Material of TGSIs

- Thermoplastic
- Rubber
- Other

Pattern Type

- Truncated Dome
- Strip Linear
- Random Pebble

Height of TGSIs (mm)

Condition of TGSIs

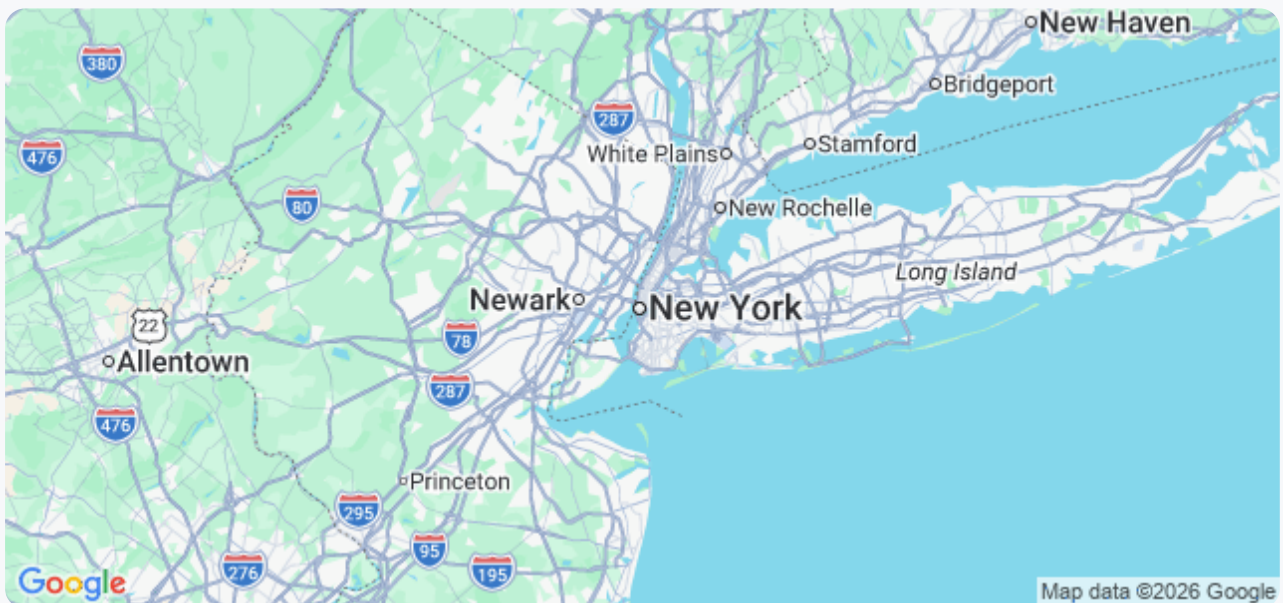

- Intact
- Minor Damage
- Significant Damage
- Missing

Detailed Description of any Damage/Issues

Write something...

GPS Coordinates of Problem Area

 [Set My Current Location](#)

Upload Photos of TGSIs

 [Upload File](#)

Platform Accessibility

Evaluation of platform level, gaps, and edge protection, and availability of seating.

Platform Height (inches)

Enter a number...

Gap Width at Platform Edge (inches)

Enter a number...

Platform Level – Is platform level consistent?

- Yes
- No
- N/A

Edge Protection Features Present?

- Tactile paving
- Visual strip
- Guardrail
- None

Adequate Seating Available?

- Yes
- No
- Insufficient

Describe any platform obstructions

Write something...

Ticket Vending Machines and Fare Payment

Assessment of accessible ticket vending machines and fare payment options (e.g., height, reach, audio cues).

Height of Ticket Vending Machine (inches)

Reach Panel Height Compliance

- Compliant
- Non-Compliant
- Not Applicable

Accessible Payment Options Available

- Credit/Debit Card
- Mobile Payment
- Cash
- Prepaid Card
- Other

Audio Instructions Available?

- Yes
- No
- Partially Available

Comments on Accessibility of Fare Payment System

Information and Signage

Review of clear, legible, and accessible signage (e.g., font size, contrast, braille/raised lettering, audio announcements).

Signage Visibility - General

- Excellent
- Good
- Fair
- Poor

Font Size (Minimum)

Contrast - Text & Background

- Meets Standard
- Slightly Low
- Low
- Unacceptable

Signage Formats Present

- Braille
- Raised Characters
- Visual Symbols
- Audio Announcements

Comments on Specific Signage (e.g., platform numbering)

Write something...

Audio Announcements Present & Audible

- Yes
- No
- Partially Present

Restrooms

Inspection of accessible restroom facilities, including dimensions, grab bars, sinks, and toilet paper dispensers.

Toilet Stall Width (inches)

Enter a number...

Sink Height (inches)

Enter a number...

Grab Bar Configuration

- Compliant
- Needs Repair
- Not Present

Toilet Paper Dispenser Height (inches)

- Compliant
- Needs Repair
- Not Present

Mirror Accessibility

- Compliant
- Needs Repair
- Not Present

Detailed observations/comments regarding restroom accessibility

Write something...

Photo evidence of restroom features

 Upload File

Emergency Features

Examination of accessible emergency features, such as emergency call boxes and evacuation routes.

Emergency Call Box Functionality Test Result (0-5, 5 being fully functional)

Emergency Lighting System Status

- Functional
- Malfunctioning
- Needs Inspection

Last Emergency Evacuation Drill Date

Time of Last Emergency System Test

Observations regarding Accessibility of Emergency Evacuation Routes

Write something...

Emergency Signage Visibility Assessment

- Visible and Clear
- Partially Obstructed
- Not Visible

Photo Evidence of Emergency Features (e.g., signage, call boxes)

 Upload File

Waiting Areas

Assessment of waiting areas for accessibility, including seating, shelter, and protection from the elements.

Number of Accessible Seating Spaces

Enter a number...

Distance to Nearest Accessible Seating

Enter a number...

Seating Material - Slip Resistance?

Yes

No

N/A

Amenities Present?

Shelter

Heated/Cooled

Information Displays

None

Description of Any Barriers or Issues

Write something...

Lighting

Evaluation of adequate and even lighting throughout the station, minimizing glare and shadows.

Average Lux Level at Platform Edge (Lux)

Enter a number...

Average Lux Level in Waiting Areas (Lux)

Enter a number...

Type of Lighting Fixtures Used (e.g., LED, Fluorescent)

- LED
- Fluorescent
- Incandescent
- Other

Uniformity of Light Distribution (Subjective)

- Excellent
- Good
- Fair
- Poor

Notes on Glare or Shadows

Write something...

Emergency Lighting System Status

- Operational
- Needs Inspection
- Not Operational

Communication Systems

Review of accessible communication systems, including audio announcements, visual displays, and emergency communication devices.

Are audio announcements provided for arrival/departure information?

- Yes
- No
- Partially

Are real-time arrival/departure displays available?

- Yes
- No
- Limited Availability

Are visual displays (e.g., route maps, schedules) adequately sized and legible?

- Yes
- No
- Needs Improvement

Volume of audio announcements (dB - estimated)

Enter a number...

Date of last system maintenance/upgrade for communication systems

Enter date...

Describe any issues observed with communication system clarity or accessibility.

Write something...
