

Soil Erosion Control Measures Inspection Checklist

Site Overview & Existing Conditions

Initial assessment of the land and existing erosion risks.

Dominant Soil Type(s) Present Sandy Loamy Clayey	
☐ Sandy ☐ Loamy	
Loamy	
_ Glayey	
Silty	
Other (Specify in Long Text)	
Maximum Observed Slope Gradient (%)	
Enter a number	
Observed Evidence of Existing Erosion (e.g.,	gullies, rills, pedestals)
Write something	
Current Land Use	
Row Crops	
Pasture/Grazing	
Orchard/Vineyard	
Other (Specify in Long Text)	
Site Map/Aerial Photo (optional)	

Write something Tillage Practices Valuation of tillage methods and their impact on soil stability. Tillage Method Used? Conventional Tillage Reduced Tillage	
valuation of tillage methods and their impact on soil stability. Tillage Method Used? Conventional Tillage	
valuation of tillage methods and their impact on soil stability. Tillage Method Used? Conventional Tillage	
Conventional Tillage	
Reduced Tillage	
■ No-Till	
Contour Plowing	

Reduced Tillage	
☐ No-Till	
Contour Plowing	
Other (Specify in LONG_TEXT)	
If 'Other' tillage method selected, please spec	cify:
Write something	
Average Tillage Depth (inches):	
Enter a number	
Is the field sloped? (Consider slope influence	on tillage)
Yes	

☐ No

Write something	
Are tillage operations being conducted perpendicular to the slope? Yes No Not Applicable	
Notes on field preparation and tillage practices:	
Write something	
Contour Farming & Terracing	
Contour Farming & Terracing spection of contour farming and terracing implementation and effectiveness.	
spection of contour farming and terracing implementation and effectiveness.	
spection of contour farming and terracing implementation and effectiveness. Contour Length (meters)	

Terrace Construction Type
Graded Terrace
Bench Terrace
Contour Bund
Other (specify)
Describe any observed issues with terrace stability or contour alignment.
Write something
Are terraces showing signs of:
Cracking
Slumping
☐ Erosion at toes
□ Vegetation loss
None observed
Terrace/Contour Alignment
Excellent - Precisely aligned with contours
Good - Minor deviations
Fair - Noticeable deviations
Poor - Significant misalignment
Date of last terrace/contour maintenance
Enter date

Cover Cropping & Crop Rotation

What cover crops are currently being used?	
Rye	
Oats	
Hairy Vetch	
Crimson Clover	
Winter Peas	
Buckwheat	
Radish	
Other (Specify in Long Text)	
If 'Other' was selected above, please specify the cover	crop(s):
Write something	
The second secon	
Estimated percentage of field area covered by cover cr	op:
Estimated percentage of field area covered by cover cr	op:
Estimated percentage of field area covered by cover cr	op:
	op:
	op:
Enter a number	op:
Enter a number What is the primary purpose of the cover crop(s)?	op:
Enter a number What is the primary purpose of the cover crop(s)? □ Erosion Control	op:
Enter a number What is the primary purpose of the cover crop(s)? Erosion Control Soil Improvement (Organic Matter)	op:
What is the primary purpose of the cover crop(s)? Erosion Control Soil Improvement (Organic Matter) Weed Suppression	op:
What is the primary purpose of the cover crop(s)? Erosion Control Soil Improvement (Organic Matter) Weed Suppression Nitrogen Fixation	op:
What is the primary purpose of the cover crop(s)? Erosion Control Soil Improvement (Organic Matter) Weed Suppression Nitrogen Fixation All of the Above	op:

Write something				
Is the crop rotatio ☐ Yes	n sequence docu	mented and foll	owed?	
No Unsure				
onservatio	a Tillago (l	lo Till Da	duced T	:III/
	i illiaye (i	vo-iiii, re	tuuceu i	··· <i>'</i>
view of conservation	n tillage technique	s employed and	their condition.	
Tillage System En		s employed and	their condition.	
Tillage System En No-Till		s employed and	their condition.	
Tillage System En No-Till Reduced Till	ployed?		their condition.	
Tillage System En No-Till Reduced Till			their condition.	
Tillage System En No-Till Reduced Till Conventional Tilla Unknown	ployed? e (Not Conservation		their condition.	
Tillage System En No-Till Reduced Till Conventional Tilla	ployed? e (Not Conservation		their condition.	
Tillage System En No-Till Reduced Till Conventional Tilla Unknown Residue Coverage	ployed? e (Not Conservation		their condition.	
Tillage System En No-Till Reduced Till Conventional Tilla Unknown Residue Coverage	ployed? e (Not Conservation))	their condition.	
Tillage System En No-Till Reduced Till Conventional Tilla Unknown Residue Coverage Enter a number	ployed? e (Not Conservation))	their condition.	

Compaction Assessment No Visible Compaction Minor Compaction Moderate Compaction Severe Compaction
Tillage Equipment Depth (inches) Enter a number
Last Tillage Date Enter date
Any signs of wheel tracks or rutting? Write something
Vegetative Buffer Strips & Riparian Zones nspection of vegetative buffers and riparian zones along waterways.
Buffer Strip Width (feet) Enter a number

Dominant Vegetation Types in Buffer Strip (Select all that apply) Grasses Shrubs Trees Forbs (Wildflowers) Other (Specify in LONG_TEXT)
If 'Other' vegetation type selected, please specify: Write something
Condition of Vegetation (Overall Health and Density) Excellent Good Fair Poor
Describe any signs of stress or disease observed in vegetation: Write something
Estimated Percent Ground Cover by Vegetation: Enter a number

Evidence of Invasive Species Present? Yes No Uncertain
If invasive species are present, identify them and describe extent:
Write something
Is the riparian zone adequately protecting the waterway? Yes No Uncertain
Buffer Strip/Riparian Zone Boundary Location (GPS Coordinates)
Set My Current Location

Wind Erosion Control (Windbreaks, Strip Cropping)

Assessment of measures taken to minimize wind erosion.

Are windbreaks present? Yes No Unclear/Not Visible
Average height of windbreak trees/shrubs (feet)
Enter a number
Estimated width of windbreak (feet)
Enter a number
What types of vegetation are used in the windbreak? Trees Shrubs Grasses Other (Specify in LONG_TEXT)
If 'Other' selected above, please specify vegetation types: Write something

Are strip cropping practices implemented? Yes No Unclear/Not Visible
Approximate width of crop strips (feet)
Enter a number
Describe the condition of windbreaks/strip cropping (e.g., signs of damage, disease, inadequate growth)
Write something
Attach photos of windbreaks/strip cropping (optional) L Upload File
Sediment & Runoff Management
Evaluation of practices to control sediment runoff and water quality.
Are sediment basins present? Yes No N/A

Sediment Basin Capacity (cubic feet)
Enter a number
Sediment Basin Overflow Condition
Adequate
☐ Inadequate
Not Observed
Describe any observed issues with sediment traps or basins (e.g., excessive sediment buildup, structural damage).
Write something
Which of the following runoff management techniques are implemented? (Select all that apply)
Grassed Waterways
Diversion Ditches
Check Dams
✓ Vegetated Filter Strips✓ None
Is there evidence of gully erosion? Yes No Unsure

Write something
aintenance & Condition
erall assessment of the condition of erosion control measures and maintenand ivities.
Estimated Erosion Rate (tons/acre/year)
Enter a number
Condition of Vegetation (Buffer Strips/Terraces) Excellent Good Fair Poor
Description of any observed damage or degradation
Write something
Date of Last Maintenance Activity
Enter date

Estimated sediment accumulation at the base of terraces/buffers (in Enter a number	
Maintenance Issues Observed (Select all that apply)	
Rills/Gullies	
Vegetation Loss	
Terrace Failure	
Sediment Build-up	
☐ Wind Damage	
None	
Time of last inspection	
Specific maintenance recommendations	
Write something	
ocumentation & Record Keeping	
eview of records related to erosion control planning and implementation.	
Date of Last Erosion Control Plan Review	

Summary of Erosion Control Plan (brief description)	
Write something	
Copy of Current Erosion Control Plan	
♣ Upload File	
Estimated Annual Soil Loss (tons/acre - if available)	
Enter a number	
Method Used to Estimate Soil Loss (if applicable)	
☐ RUSLE ☐ Universal Soil Loss Equation	
Other (Specify in Long Text)	
Comments/Notes on Erosion Control Plan Updates	
Write something	
Date of Last Maintanance Log Boylow	
Date of Last Maintenance Log Review	
Enter date	

Copy of Maintenance Log (if available)
