

Train Depot Safety Inspection Checklist Template

Track & Infrastructure

Inspection of track condition, signaling systems, and associated infrastructure.

Track Gauge Measurement (mm)

Rail Profile Deviation (mm)

Condition of Rail Fastenings

- Good
- Fair
- Poor

Condition of Turnout

- Good
- Fair
- Poor

Last Track Inspection Date

Enter date...

Notes on Track Condition

Write something...

Signaling System Status

- Operational
- Minor Issue
- Major Issue

GPS Location of Track Inspection Start Point

[📍 Set My Current Location](#)

Rolling Stock - General Condition

Visual assessment of train cars, including exterior, interior, and undercarriage.

Train Car Mileage (km)

Enter a number...

Exterior Condition Notes (Rust, Dents, Scratches)

Write something...

Interior Condition Notes (Cleanliness, Damage, Wear)

Write something...

Evidence of Vandalism?

- Yes
- No
- Partial

Tire Pressure (each tire)

Enter a number...

Undercarriage Condition Notes (Leaks, Damage)

Write something...

Rolling Stock - Safety Equipment

Check functionality of emergency exits, fire extinguishers, and other safety devices on trains.

Fire Extinguisher Quantity

Enter a number...

Fire Extinguisher Inspection Date (mm/dd/yyyy)

Enter a number...

Emergency Exit Door Functionality

- Fully Functional
- Minor Obstruction
- Requires Maintenance
- Inoperable

Emergency Lighting Functionality

- Functional
- Dim/Flickering
- Requires Maintenance
- Inoperable

Emergency Communication Devices

- Radio
- Intercom
- PA System
- Emergency Phone

First Aid Kit Condition

- Complete and Stocked
- Minor Replenishment Required
- Significant Replenishment Required
- Missing/Expired Items

Last Inspection of Emergency Equipment

Enter date...

Depot Building & Structures

Evaluation of building integrity, lighting, and overall condition of depot buildings.

Lighting Levels (Lux)

Enter a number...

Roof Condition

- Good
- Fair
- Poor
- Requires Repair

Wall Integrity

- Intact
- Cracks Present
- Significant Damage

Last Structural Inspection Date

Enter date...

Observations/Notes on Building Condition

Write something...

Fire Alarm System Status

- Operational
- Testing Required
- Malfunction

Temperature (Degrees Celsius)

Enter a number...

Power & Electrical Systems

Assessment of electrical infrastructure, power supply, and safety measures.

Main Power Supply Voltage (V)

Enter a number...

Substation Transformer Temperature (°C)

Enter a number...

Circuit Breaker Condition

- Good
- Fair
- Needs Repair
- Failed

Electrical Hazard Indicators

- Arcing
- Overheating
- Smell of Burning
- Flickering Lights
- None Observed

Last Circuit Breaker Test Date

Enter date...

Comments/Observations regarding Electrical Systems

Write something...

Fueling & Maintenance Areas

Inspection of fueling stations, maintenance bays, and related equipment.

Fuel Level (Diesel/Electric)

Enter a number...

Fuel Spill Prevention Measures

- Adequate Containment
- Spill Kit Available
- Personnel Trained
- Not Applicable

Observations Regarding Equipment Condition (Fuel Pumps, Compressors, etc.)

Write something...

Pressure Gauge Reading (Compressor)

Enter a number...

Ventilation System Functionality

- Fully Operational
- Partially Operational
- Not Operational
- Not Applicable

Last Maintenance Date (Fueling Equipment)

Enter date...

Photo Documentation (if applicable)

 Upload File

Environmental & Waste Management

Verification of waste disposal procedures, spill prevention, and environmental controls.

Waste Oil Volume (Gallons)

Enter a number...

Used Coolant Volume (Gallons)

Enter a number...

Waste Disposal Method

- Recycled
- Landfill
- Incineration
- Other (Specify in LONG_TEXT)

If 'Other' disposal method selected, please specify:

Write something...

Spill Prevention Equipment Condition

- Good
- Fair
- Poor

Last Waste Manifest Review Date

Enter date...

Waste Types Present

- Oil
- Coolant
- Batteries
- Tires
- Other (Specify in LONG_TEXT)

If 'Other' waste type selected, please specify:

Write something...

Personal Protective Equipment (PPE)

Assessment of PPE availability and usage by depot personnel.

Number of available hard hats

Enter a number...

Number of available safety glasses/goggles

Enter a number...

Number of available high-visibility vests

Enter a number...

Number of available work gloves

Enter a number...

Condition of available respirators (if applicable)

- Good
- Fair
- Poor
- Not Applicable

Availability of hearing protection (earplugs/earmuffs)

- Available
- Limited
- Not Available

Notes on PPE condition or shortages

Write something...

Emergency Response & Security

Review of emergency procedures, security systems, and access control measures.

Fire Alarm System Status

- Operational
- Malfunctioning
- Under Maintenance

Last Fire Drill Participation Count

Enter a number...

Date of Last Security System Test

Enter date...

Time of Security Guard Shift Change

Security System Components Tested

- CCTV Cameras
- Access Control Points
- Perimeter Fencing
- Intrusion Detection Systems

Observations/Notes Regarding Security Risks

Write something...

Emergency Evacuation Route Clear?

- Yes
- No
- Partially Obstructed

Attach Photos of Security Breach Areas (if applicable)

 Upload File

Signage & Communication

Verification of clear and visible safety signage and effective communication systems.

Emergency Contact Number Posted?

Enter a number...

Signage Visibility (Overall)

- Excellent
- Good
- Fair
- Poor

Description of any damaged or missing signage:

Write something...

Public Announcement System Functionality

- Functional
- Partially Functional
- Non-Functional

Last Communication System Test Date

Time of Last Communication Test
