

Vegetation Removal Compliance Checklist

Pre-Removal Planning & Permits

Ensures proper planning, permits, and stakeholder consultation are completed before any vegetation removal begins.

Date of Initial Site Assessment

Project Type (e.g., Residential, Commercial, Road)

- ☐ Residential
- ☐ Commercial
- ☐ Road Construction
- ☐ Infrastructure
- ☐ Other

Is a Vegetation Removal Permit Required?

- ☐ Yes
- ☐ No
- ☐ Uncertain

Copy of Vegetation Removal Permit (if applicable)

 Upload File

Brief Description of Planned Vegetation Removal Activities

Write something...

Approximate Area of Vegetation Removal (in square feet)

Enter a number...

Have Adjacent Property Owners Been Notified?

- ☐ Yes
- ☐ No
- ☐ Not Applicable

Summary of Notifications Sent to Stakeholders (e.g., neighbors, agencies)

Write something...

Environmental Impact Assessment & Species Protection

Confirms assessment of potential environmental impacts and measures to protect sensitive species and habitats.

Was an Environmental Impact Assessment (EIA) conducted prior to vegetation removal?

- ☐ Yes
- ☐ No
- ☐ Not Required

Briefly describe the findings of the EIA (if conducted).

Write something...

Were any protected plant or animal species identified within the removal area?

- ☐ Endangered Species
- ☐ Threatened Species
- ☐ Migratory Birds
- ☐ Wetland-Dependent Species
- ☐ No Protected Species Identified

If protected species were identified, describe the mitigation measures implemented to protect them.

Write something...

Upload EIA report or relevant documentation.

 Upload File

Were consultation(s) carried out with relevant stakeholders (e.g., environmental agencies, indigenous groups)?

- ☐ Yes
- ☐ No
- ☐ Not Applicable

Date of Stakeholder Consultation

Enter date...

Removal Methodology & Best Management Practices

Verifies adherence to approved removal techniques and BMPs to minimize environmental damage.

Removal Method Approved?

- ☐ Yes, as documented in permit
- ☐ No, deviation required (document reason)

Detailed Description of Removal Methodology Used

Write something...

Equipment Used (e.g., hand tools, machinery)

- ☐ Hand Tools Only
- ☐ Machinery Used (Specify in LONG_TEXT)

If machinery was used, specify type and mitigation measures implemented to minimize impact.

Write something...

Area of vegetation cleared (square meters)

Enter a number...

BMPs Implemented (select all that apply)

- ☐ Root protection measures
- ☐ Selective clearing
- ☐ Erosion control blankets
- ☐ Stream bank stabilization
- ☐ Protection of adjacent vegetation

Photos of Removal Process (before, during, and after)

 Upload File

Any unexpected issues encountered during removal and corrective actions taken.

Write something...

Erosion and Sediment Control

Confirms measures are in place to prevent soil erosion and sediment runoff during and after vegetation removal.

Has an approved Erosion and Sediment Control Plan been implemented?

- ☐ Yes
- ☐ No
- ☐ N/A

Which erosion control measures are in place?

- ☐ Silt Fences
- ☐ Hay Bales
- ☐ Sediment Traps
- ☐ Vegetative Cover
- ☐ Check Dams
- ☐ Other (Specify in Long Text)

If 'Other' selected above, please specify:

Write something...

Number of silt fences installed:

Enter a number...

Distance from disturbed areas to nearest waterway (feet):

Enter a number...

Are inlet/outlet protection measures in place for storm drains?

- ☐ Yes
- ☐ No
- ☐ N/A

Date of last inspection of erosion control measures:

Enter date...

Notes from erosion control inspection:

Write something...

Waste Management & Disposal

Ensures proper handling, storage, and disposal of removed vegetation waste in compliance with regulations.

Method of Vegetation Waste Disposal

- ☐ On-Site Composting
- ☐ Off-Site Recycling
- ☐ Landfill Disposal
- ☐ Mulching
- ☐ Other (Specify Below)

If 'Other' disposal method selected, please describe:

Write something...

Estimated Volume of Vegetation Waste (in cubic yards)

Enter a number...

Waste Disposal Manifest (if applicable)

 Upload File

Type of Waste Container Used

- ☐ Roll-off Container
- ☐ Dump Truck
- ☐ Chipper Truck
- ☐ Other (Specify Below)

If 'Other' container type selected, please describe:

Write something...

Date of Waste Removal

Enter date...

Location of Waste Disposal Site

 [Set My Current Location](#)

Name of Hauler/Disposal Company

Write something...

Post-Removal Monitoring & Restoration

Documents ongoing monitoring activities and ensures restoration efforts are implemented as planned.

Date of Initial Post-Removal Site Assessment

Enter date...

Description of Site Conditions Immediately Post-Removal (erosion, soil stability, exposed roots)

Write something...

Percentage of Exposed Soil Stabilized (e.g., through mulch, hydroseeding)

Enter a number...

Restoration Activities Completed (Select all that apply)

- ☐ Seeding/Hydroseeding
- ☐ Mulching
- ☐ Erosion Control Blankets
- ☐ Re-vegetation with Native Species
- ☐ Other (Specify in LONG_TEXT)

Details of 'Other' Restoration Activities (if selected above)

Write something...

Date of Next Scheduled Monitoring Visit

Enter date...

Photos of Post-Removal Site and Restoration Progress (mandatory)

 Upload File

Overall Restoration Progress Assessment

- ☐ Excellent
- ☐ Good
- ☐ Fair
- ☐ Poor

Comments and Recommendations for Future Restoration Efforts

Write something...

Documentation & Reporting

Maintains accurate records of all activities and submits required reports to relevant authorities.

Date of Vegetation Removal Commencement

Enter date...

Date of Vegetation Removal Completion

Enter date...

Total Area (in acres/hectares) of Vegetation Removed

Enter a number...

Description of Vegetation Removed (Species, Condition, Size)

Write something...

Photographic Evidence of Pre-Removal Condition

 Upload File

Photographic Evidence of Removal Process

 Upload File

Permit(s) and Approval(s)

 Upload File

Summary of Deviations from Approved Plan (if any)

Write something...

Report Submission Status

☐ Not Submitted

☐ Submitted

☐ Approved

Name of Reporting Personnel

Write something...
