

Warehouse Racking & Storage Safety Inspection Checklist 2026

Structural Integrity & Frame Inspection

Verification of uprights, baseplates, and horizontal beams for any signs of bending, denting, or structural deformation.

Upright Damage Severity

- ☐ No Damage Detected
- ☐ Minor Dent/Deformation
- ☐ Significant Structural Damage
- ☐ Critical/Immediate Repair Required

Detailed Damage Description

Write something...

Photo Documentation of Damage

Inspection Date

Inspector Verification

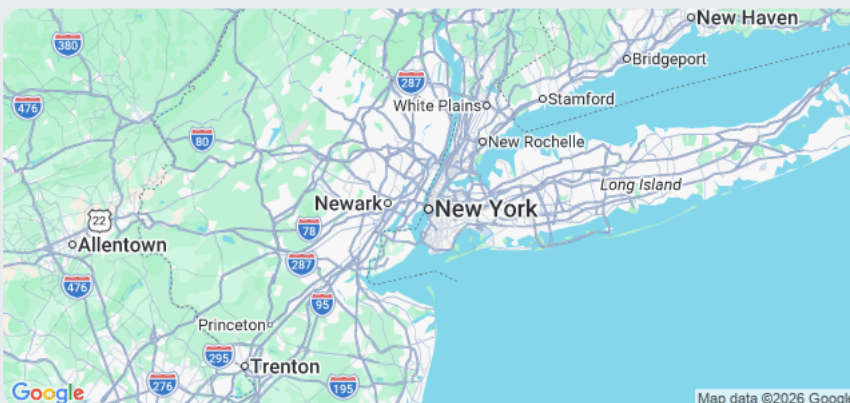

Upright & Baseplate Stability

Assessment of floor anchoring, bolt tightness, and the condition of baseplates to ensure the racking is properly secured to the floor.

Inspection Date

Aisle or Zone Number

 [Set My Current Location](#)

Baseplate Condition

- ☐ Secure & Intact
- ☐ Loose or Damaged
- ☐ Missing Bolts/Anchors

Upright Verticality (Plumbness)

- ☐ Within Tolerance
- ☐ Visible Lean/Deformation

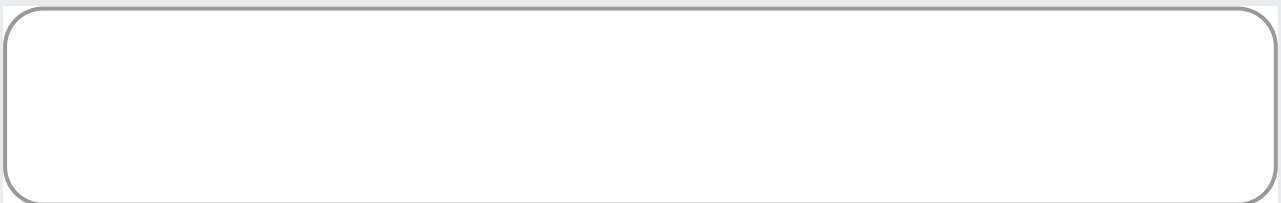

Observations of Damage or Instability

Write something...

Inspector Signature

Beam & Connection Security

Inspection of safety pins, locking mechanisms, and connectors to ensure beams are properly seated and cannot dislodge from uprights.

Safety Pin/Locking Clip Presence

- ☐ All clips present and engaged
- ☐ Missing or loose clips
- ☐ Damaged or non-functional clips

Beam Seating Condition

- ☐ Securely seated
- ☐ Dislodged/Improperly seated
- ☐ Deformed/Bending

Observed Beam Damage Details

Inspector Verification

Load Capacity & Weight Compliance

Review of maximum load capacity signage and verification that stored pallets do not exceed rated weight limits.

Max Rated Capacity Verified

- ☐ Yes
- ☐ No
- ☐ N/A

Current Observed Load Weight (kg/lbs)

Enter a number...

Load Distribution Status

- ☐ Evenly Distributed
- ☐ Uneven/Imbalanced
- ☐ Overhanging

Discrepancy Notes

Write something...

Load Capacity Certificate/Manual Upload

 Upload File

Pallet & Load Condition

Inspection of stored goods and pallets for damage, overhang, or unstable stacking patterns that could cause collapse.

Pallet Condition Status

- ☐ Good Condition
- ☐ Damaged - Requires Replacement
- ☐ Critical - Immediate Removal Required

Identified Load Issues

- ☐ Uneven Weight Distribution
- ☐ Overhanging Goods
- ☐ Obstructed View
- ☐ Damaged Packaging
- ☐ Improper Stacking Height

Estimated Load Weight (kg/lbs)

Enter a number...

Detailed Damage Description

Write something...

Photo Documentation of Load/Pallet

 Upload File

Aisle Clearance & Floor Condition

Ensuring aisles are free of debris, checking for floor cracks or uneven surfaces, and verifying clear paths for forklift movement.

Aisle Obstruction Status

- ☐ Clear
- ☐ Obstructed
- ☐ Partially Obstructed

Description of Debris or Obstructions

Write something...

Floor Surface Condition

- ☐ Good Condition
- ☐ Cracks Detected
- ☐ Spills/Slippery Surface
- ☐ Uneven/Potholes

Photo of Floor/Aisle Condition

Inspection Date

Enter date...

Safety Signage & Floor Markings

Verification of visible capacity labels, pedestrian walkway markings, and warning signs for high-traffic or hazardous zones.

Pedestrian Walkway Visibility

- ☐ Clear and highly visible
- ☐ Faded or worn
- ☐ Obstructed or missing

Rack Load Capacity Signage Status

- ☐ All signs present and legible
- ☐ Missing or illegible signs
- ☐ Signs damaged/unreadable

Identified Safety Deficiencies

- ☐ Missing floor tape
- ☐ Unreadable warning signs
- ☐ Obstructed emergency exits
- ☐ Damaged bollard markings

Detailed Observations

Write something...

Photo Evidence of Markings

 Upload File

Inspection Date

Enter date...

Protective Guarding & Bollards

Evaluation of column protectors, end-of-aisle guardrails, and bollards for impact damage or effectiveness in protecting uprights.

Column Protector Condition

- ☐ Intact
- ☐ Damaged - Requires Repair
- ☐ Missing/Destroyed

Bollard Stability Assessment

- ☐ Securely Anchored
- ☐ Loose/Wobbling
- ☐ Structural Damage Detected

Damage Description

Write something...

Photo Evidence of Damage

 Upload File

Date of Inspection

Enter date...

Inspector Signature

Rack Hardware & Accessories

Assessment of wire decking, pallet supports, and safety netting for wear, corrosion, or missing components.

Wire Decking Condition

- ☐ Intact
- ☐ Damaged/Bent
- ☐ Missing
- ☐ N/A

Missing or Damaged Accessories

- ☐ Safety Netting
- ☐ Backstop Bars
- ☐ Pallet Supports
- ☐ Safety Pins/Clips

Detailed Damage Description

Write something...

Photo of Accessory Damage

 Upload File

Inspector Confirmation

Incident Reporting & Maintenance Log

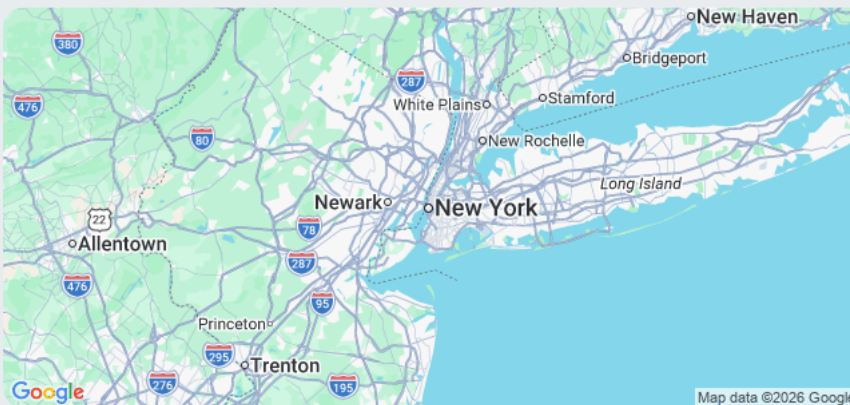

Review of recent impact reports, repair history, and documentation of immediate corrective actions taken following inspections.

Inspection Date

Enter date...

Warehouse Zone/Aisle Number

 [Set My Current Location](#)

Incident Severity Level

- ☐ Low (Minor cosmetic damage)
- ☐ Medium (Repair required soon)
- ☐ High (Immediate structural risk)
- ☐ Critical (Stop use/Evacuate area)

Description of Identified Damages or Incidents
